SEEDS FREE FOR TRIAL

We offer here some very choice varieties FREE. For each 25c worth of seeds ordered in packages and ounces you may select one package free. Not more than six packages to one customer.

PERFECTION POLE BEAN

An early maturing, green podded, white seeded pole bean. Very desirable for snaps and also unsurpassed as a green shell bean. The pods are round, very long, often eight to nine inches, and of excellent quality.

AILS A CRAIG ONION

Probably the largest onion in cultivation, specimens having been grown which weighed three pounds. The skin is of a beautiful straw color, flesh white and very sweet and tender. A great onion to grow for exhibition.

DELICIOUS RADISH

Almost everyone knows the excellent qualities of the White Icicle Radish. This variety is fully as good, and instead of being long it is half-long or olive shaped. Flesh and skin are pure white, and as its name implies it is delicious.

FIRST CROP TOMATO

Almost everyone loves tomatoes and the earliest or first ones are always the most welcome. Here we have an extra early variety which produces good sized tomatoes of a beautiful red color and also fine quality. You will find them almost solid flesh, as our northern grown tomato seed is famous for this characteristic.

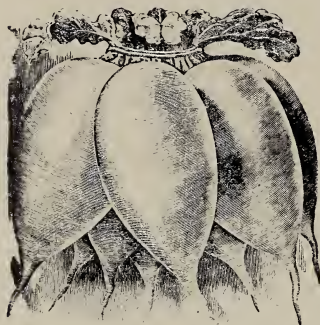

JUNG'S MAMMOTH ASTERS

Asters are our favorite flower and it is quite natural that we want them planted by every flower lover. This new strain is truly mammoth in size of flowers: specimens measured five inches in diameter and were produced on stems three feet long.

Plant them in rich soil and give plenty of room.

CARDINAL CLIMBER

The most beautiful and brilliant annual climber ever sent out. It is a rapid grower, attaining a height of 20 feet or more, with beautiful cut foliage, and is literally covered with fiery cardinal flowers from mid-summer until frost.

DELICIOUS RADISH

CACTUS ZINNIA

A new race of Zinnia, the flowers of which resemble a cactus-dahlia. Bushes are vigorous growers and produce the handsome flowers in great profusion and many colors.

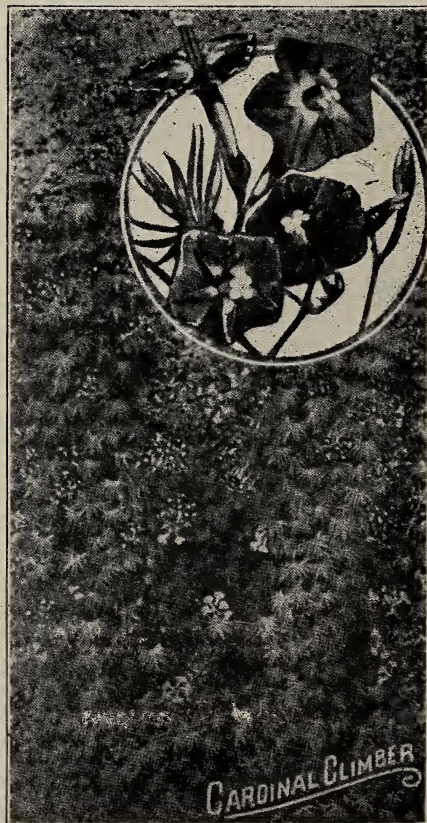

A booklet on making gardens sent FREE with every order

AILS A CRAIG ONION

PERFECTION POLE BEAN

CARDINAL CLIMBER

IN placing before you our 15th Seed Annual we first of all want to thank our many customers for the orders with which they have favored us the past season; it was by far the best year we have ever enjoyed.

The steady increase of our business from year to year is the best evidence that Jung's Seeds are giving satisfaction.

In no other line of business does the buyer place as much confidence in the firm with whom he deals, as in the purchasing of seeds, as no one can tell from the appearance of the seed what kind of a crop they will produce. That we do not betray the confidence placed in us is proven by the ever increasing number of our customers.

We grow many of the seeds we sell ourselves, others are grown for use under contract by the most reliable growers. Jung's Seeds cost more to produce than the common kinds, but the resulting crop will also be worth more. The cost of good seeds is very small when compared to the crop they produce.

By all means plant a garden and take proper care of it; it will be the best paying piece of ground you have. It is surprising how much you can grow on a small piece of ground, and the quality is so much better when taken fresh from the garden. It is one of the best ways to reduce the H. C. of L.

Why You Should Plant Jung's Quality Seeds

Quality—There may be others as good, but none that are better.

Price—When quality is taken into consideration, you will agree that our prices are very reasonable.

Service—We have added more buildings and much new machinery to our equipment and will be enabled to fill your orders more promptly than ever. Most orders are sent out within 36 hours after we receive them.

Free Delivery—We prepay all charges on seeds offered in this catalog by the packet, ounce, quarter pound, pound, one-half pint, pint and quart, except on wholesale page.

How to Make a Garden—With every order we send free a book of plain instructions on growing the finest vegetables and most beautiful flowers.

Our Responsibility—You are absolutely safe in sending your order to us. Any seeds that are not satisfactory upon arrival may be returned and your money will be promptly refunded.

We refer you to any commercial agency, the Randolph State Bank and the postmaster at Randolph, Wis.

INSTRUCTIONS ABOUT ORDERING

Kindly use the order sheet enclosed with catalog. This will greatly facilitate the filling of your order.

Write plainly and you will be sure to have your order filled promptly and correctly. Be sure and sign your name and full address on every order and keep a copy of the same. If your freight or express office is different from your post-office, give that also. This is important, as we cannot forward goods if we do not know where to send them.

REMITTING MONEY—Cash should accompany the order. Remittance may be sent by Money Order, Bank Draft, Registered Letter or Personal Check. When money is sent by any of the above methods, the cost of remitting may be selected in extra seeds. Remittances sent in any other way are entirely at the sender's risk. Postage stamps will be accepted as cash for small amounts.

FREE DELIVERY—We deliver free to any postoffice in the United States all seeds except those on wholesale list, offered by the packet, ounce, quarter-pound, half-pint and quart. On seeds in larger quantities, purchaser pays transportation charges.

WARRANTY—While we use every effort possible in the selection of our seeds, we feel justified in saying that our seeds are as pure as the best; but at the same time there are causes beyond the control of man that spoil the best seed and cause poor crops, that it is impossible to guarantee the seeds. Therefore, while we exercise great pains to have our seeds pure and reliable, we sell no seeds with warranty, expressed or implied, further than the amount actually paid for such seeds as prove unsatisfactory, should there be just cause for complaint. It must, however, be plain to everyone that it is to our best interest to send out only such stock as will grow and prove true in name and description.

SAFE ARRIVAL OF PACKAGES—We endeavor to secure the safe arrival of packages of seeds and bulbs in good condition in every case. If a package is injured or lost by mail or express, we will replace it if notified of the fact. Frequently it happens that orders never reach us, or are without signature or address. When customers fail to receive their packets within a reasonable time, they should inform us, and at the same time send a copy of their order and any other information necessary to trace the goods.

JUNG'S UNRIVALED GARDEN SEEDS

In the following list you will find only such varieties as has been thoroughly tested and found to be of special merit. All of our seeds were grown from the finest select stocks and for quality and productiveness are unexcelled by any others. We handle only the very best seeds, and quality rather than price is our first aim.

Jung's Fairfield Wonder Wax BUSH BEAN

Without a doubt the finest Wax or Butter Bean ever introduced.

It is with pleasure that we offer our customers this grand new Butter Bean, as we are sure it will please the most critical planters. This variety originated on our Fairfield Farm and is by far the finest wax bush bean we have ever seen. The bushes are unusually vigorous and free from disease. They grow from 15 to 20 inches high, have large, heavy foliage and bear an immense load of pods, which are from 6 to 9 inches long, one-half inch broad, and have absolutely no strings whatever. The color is a rich lemon yellow. If you want the very best Butter Bean of them all try Jung's Fairfield Wonder Wax. Pkt. 10c; 1-2 pt. 25c; pt. 40c; qt. 75c.

Brittle Wax Bush Bean

The earliest of all BUSH BEANS. Of such excellent quality it might well be termed "best of all."

The plants are very hardy and vigorous, of true bush growth, about fifteen inches high and heavily laden with the long, straight, round and very solid pods, from five to seven inches long. The pods are of a rich golden color, very tender and entirely free from strings at all stages of its growth. It will stand longer than any other bean without becoming hard. The pods are unexcelled for snap-shorts, having white seeds showing only a black dot at the eye. Any pods allowed to ripen will be readily saleable as winter shell beans. Include this great bean in your order.

Pkt. 10c; ½ pt. 25c; pt. 40c; qt. 75c, postpaid.

BRITTLE WAX BUSH BEAN

The greatest
seed bargains
of this year
are offered on
inside back
cover.

Include
them in your
order.

NEW KIDNEY WAX BUSH BEAN

New Kidney Wax Bush Bean

One of the finest flat podded Wax Bush Beans in cultivation. A great improvement on Wardwell's Kidney Wax, being more robust and prolific and having longer pods which are much handsomer and of finer quality. The plants are of perfect bush habit, reaching 18 to 20 inches in height. Their thick foliage is free from blight, while the pods are free from rust. The fleshy pods are flattened in form, six to seven inches long, one-half inch broad and three-eighths of an inch thick; the color is a rich lemon yellow. The pods are remarkable for their meatiness, fine flavor and absolute freedom from strings. The pods hang in rich clusters from the vines, making picking easy. Plants of this variety have been grown on our Fairfield Farm bearing forty pods each. It is without any doubt one of the best varieties to plant for either the home or market garden.

Pkt. 10c; ½ pt. 25c; pt. 40c; qt. 75c, postpaid.

There is a difference in seeds. Jung's Quality Seeds have stood the test and have given the best of satisfaction.

BUSH BEANS--Continued

Currie's Rust Proof Golden Wax

One of the Earliest and Most Prolific Wax Bush Beans.

The bushes are strong, vigorous growers and bear an immense load of long, flat, meaty pods, which are of the most handsome appearance. Not only does this variety possess the merit of being rust-proof, but it is also extra early. The pods are exceedingly crisp and tender and of a most delicious flavor.

Pkt. 10c; 1-2 pt. 20c; pt. 35c; qt. 65c, postpaid.

Pencil Pod Black Wax

We consider this one of the best Wax Beans yet introduced. It is very productive and of most excellent flavor. The pods are long, straight and round like a pencil, fleshy and of a bright yellow color; tender, brittle and absolutely stringless.

The plants are of true bush growth, 15 inches high, with abundant foliage. The magnificent pods are from 5 to 7 inches long.

Pkt. 10c; 1-2 pt. 20c; pt. 35c; qt. 65c.

Our Seed Beans are extra fine, hand picked, thoroughly rogued and will give you satisfaction,

Refugee Butter Wax

One of the heaviest yielding of all wax Bush Beans, also one of the surest croppers. Many times when all other varieties were a failure, Refugee yielded a heavy crop. It is a very hardy variety, having withstood frosts which seriously checked other varieties. The bushes are literally covered with fine transparent yellow pods which are from 4 to 5 inches long, remarkably tender and brittle, as it has no strings whatever.

Plant it once and you will want it every year.

Pkt. 10c; ½ pt. 20c; pt. 35c; qt. 65c.

CURRIE'S RUST PROOF GOLDEN WAX

PENCIL POD BLACK WAX

Wonder Bush Lima

This variety is a great improvement on Burpee's Bush Lima. While the bushes are fully as productive, the pods are borne more at the center of the plant. This is a great advantage, as the pods are held up from the ground. The bushes grow 18 to 20 inches high, requiring no poles or stakes whatever. The pods are of truly mammoth size and contain from three to four large beans each.

Pkt. 10c; ½ pt. 25c; pt. 40c; qt. 75c.

WONDER BUSH LIMA BEAN

REFUGEE WAX

I want to thank you for the Gardeners' Delight Tomato. I had plenty of them all summer; they are so smooth and even in size; also the Wonder Bush Lima Beans, they are fine and so large and are the only ones I could ever succeed with. Your book on Gardening gave me some good pointers, the advice given therein is so clear and plain.—
Michael J. Sullivan, Milwaukee, Wis.

California Wonder Field Bean.

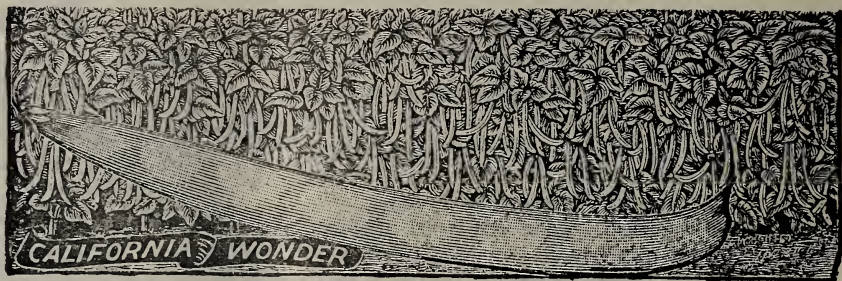

THE BEST FIELD BEAN IN CULTIVATION.

This is unquestionably the heaviest yielding bean known and a sure cropper. It is very early, having dry beans in 80 days from planting.

The large pods are filled with pure white, even sized, nearly round seeds of excellent cooking qualities. The plant grows upright and holds the thick cluster of pods well away from the ground. The leaves fall early which allows the sun to quickly mature the pods. This is not so much a garden variety, but distinctly the Farmer's Field Bean, closely resembling the well-known "Navy" Bean.

No other bean approaches it in yield, quality and readiness to find sale on the market.

Pkt. 5 cts.; $\frac{1}{2}$ pt. 20 cts.; pt. 35 cts.; qt. 55 cts., postpaid. Write for prices if wanted in larger quantities.

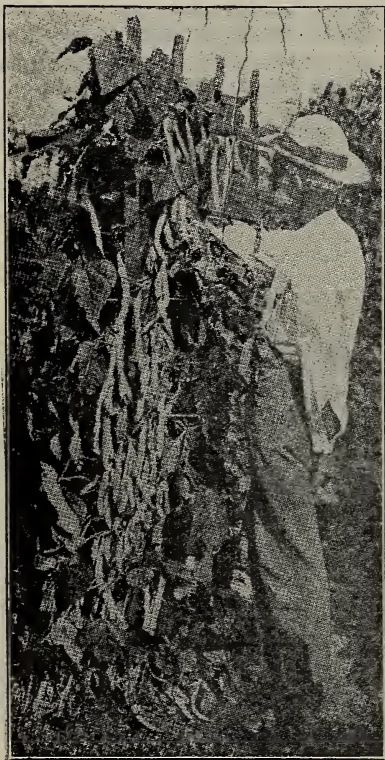

1200 to 1 OR SNOWFLAKE BEANS

1200 to 1 or Snowflake Beans.

A highly improved and wonderfully productive Field Bean.

We sent out many thousand packets of these beans last year and are more than pleased to have so many favorable reports of its great yield and handsome appearance. Any one growing dry or shell beans, either for their own use or for market, will make no mistake in planting our seed of this great bean. It ripens early, yields immensely and is of the finest quality for either soup or baked beans.

Pkt. 10c; $\frac{1}{2}$ pt. 20c; pt. 35c; qt. 60c, postpaid.

KENTUCKY WONDER WAX

POLE BEANS.

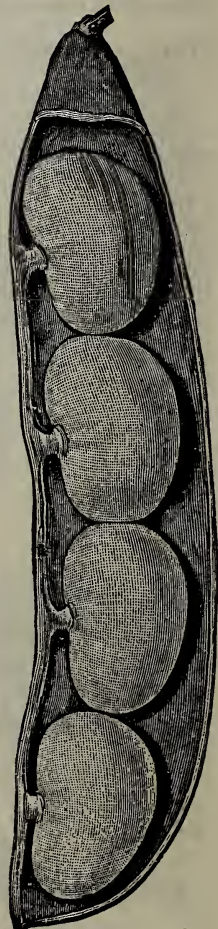

Kentucky Wonder Wax.

The merits of the old Kentucky Wonder Pole Bean are well known. This variety has all its superb qualities with the addition of a beautiful transparent yellow pod.

It is a rampant grower, one plant filling a pole with vines densely loaded with almost a solid mass of pods from bottom to top. The pods are very large, being from 6 to 8 inches in length, exceedingly tender and very fleshy. The pods are so plump and fleshy that frequently they are of greater thickness than width. Deliciously rich and buttery when cooked. Pkt. 10 cts.; 1-2 pt. 25 cts.; pt. 40 cts.; qt. 75 cts.

Henderson's Early Leviathan Pole Lima Bean.

This is the very earliest. It will not only give pods earlier than any other strain, but is also much more productive, both early and throughout the season. It is a strong grower, clinging well to the poles, and is a sure cropper. The pods hang out from the foliage in large clusters and contain 3 to 5 large beans to a pod. It bears until frost. Pkt. 10 cts.; 1-2 pt. 20 cts.; pt. 35 cts.; qt. 65 cts.

EARLY LEVIATHAN

J.W. JUNG SEED COMPANY

SEED GROWERS RANDOLPH, WISCONSIN

BEETS

Our packets of Beets each contain one-quarter ounce of seed.

Early Model

This splendid variety has attained perfection for table use. It is extremely early, of perfect globe shape and finest quality. It is a fine selection of blood red beet, extremely smooth and of symmetrical growth, fine rich color and desirable shape. The roots of Early Model are of good size and run uniformly perfect; almost round, with small, dark, crimson-colored leaves and a slim tap-root. It makes a rapid growth and matures very early. In quality and color it is peerless; very fine grained, tender and sweet, never woody or stringy. The tops are small, making it a good forcing variety. It retains its choice quality and freedom from woodiness until the Beets have reached their full size. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 35c.

Dark Leaved Globe

Many of the best selections of turnip rooted Beets have been lacking in that important essential—a dark leaf. In this variety we have all the qualities of the best strains and also a dark leaf, a sure indication of deep, red-colored flesh. Also perfect globe shaped, small tap-root, no side roots and a small top. Ready for use early and remains in prime condition for a long time.

Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 40c.

Columbia

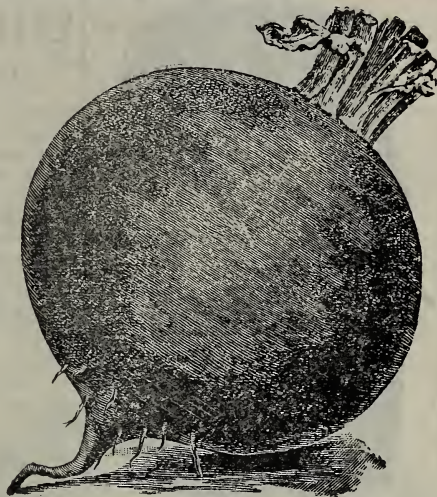

An excellent early variety for all purposes. The roots are always smooth, from four to five inches in diameter and of a neat turnip shape. The flesh is a deep red color and of fine quality, remaining tender until the roots have reached their full size. The foliage is small and of a rich bronze color. The roots can be used early in the season, when only partially grown, being ready for use soon after the extra early sorts, and is of finer quality.

Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 35c. postpaid.

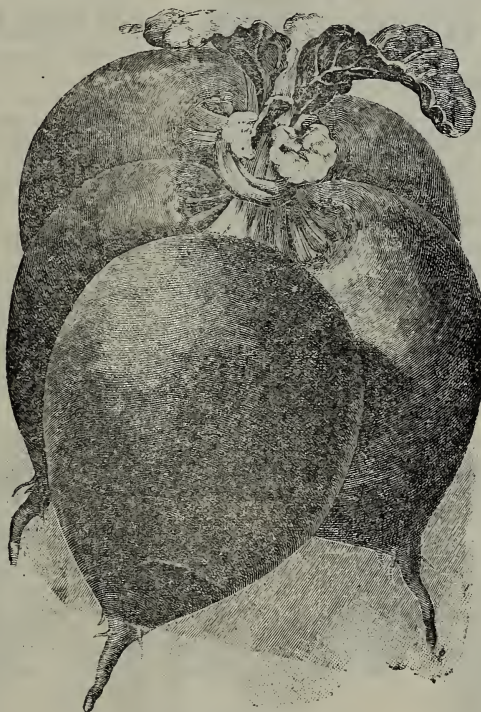

Improved Blood Turnip

This is an improved strain of the popular Blood Turnip Beet. It is very early, of perfect globe shape and free from side roots. The flesh is a deep red color, fine grained, sweet and of a dark color when cooked. Tops are small and of uniform growth, the leaves, stem and veining being a dark red. It grows quickly and is of fine quality. Excellent for summer, fall or winter use.

Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 35c.

EARLY MODEL

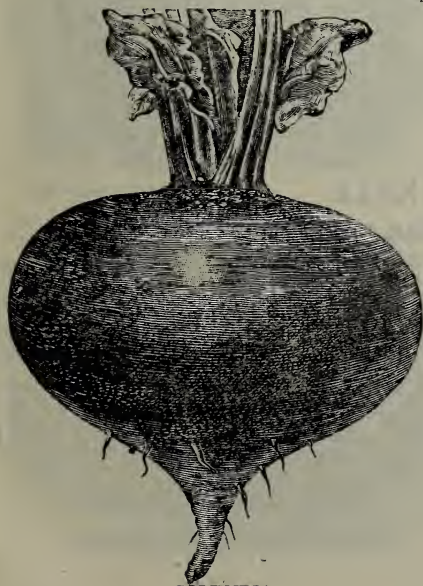

DARK LEAVED GLOBE BEET

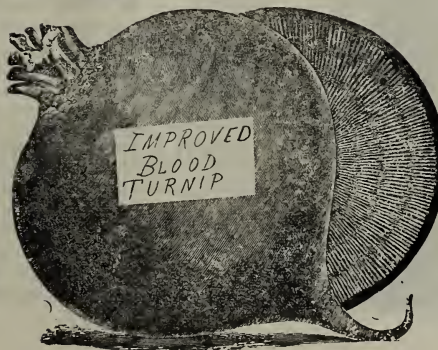

SUGAR BEET. Klein Wanzleben

Best beet for sugar making and largely planted for that purpose; 18 tons of sugar have been made from 100 tons of these beets. Highly recommended as a winter food for milch cows. Much better in quality than Mangels for feeding purposes.

Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 30c; lb. \$1.00. postpaid.

COLUMBIA

BARR'S MAMMOTH

ASPARAGUS

Barr's Mammoth

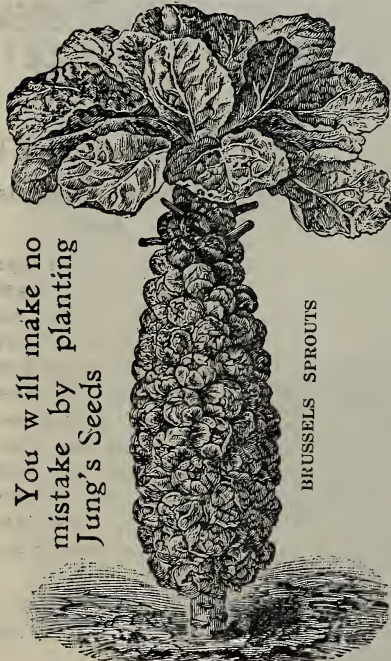

This is an excellent variety. The stalks are of a green color, almost an inch in diameter from the bottom completely to the tip. They are of quick growth and free from woody fibre.

Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c.

ENDIVE—Green Curled

Mostly sown in June or July for fall use, in rows about one foot apart; thin out to 8 inches apart and when 8 inches long, blanch by tying the top together.

Green Curled is a hardy variety, the most desirable for home use or market garden. Deep green leaves beautifully cut and curled; easily blanched and becomes crisp, tender and very fine flavored. Pkt. 5c; oz. 15c; 2 oz. 25c; $\frac{1}{4}$ lb. 40c.

You will make no mistake by planting Jung's Seeds

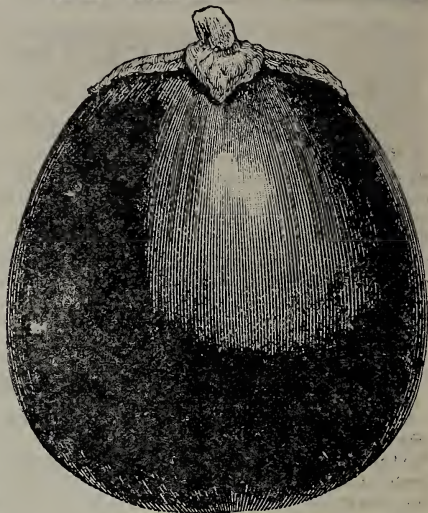

BRUSSELS SPROUTS

EGG PLANT

Black Beauty

The earliest and best of all large-fruited Egg Plants. It is an extra early variety with fruits of a beautiful jet color. The fruits set freely and develop quickly, so that the crop can be gathered before there is any danger from frost. It is of dwarf growth and bears its fruit, which weighs from one to three pounds each, close to the stem. The calyx is entirely free from spines and thorns. The intensely brilliant coloring is uniform over the whole fruit. The plants usually bear eight to ten immense fruits before being killed by frost.

Pkt. 10c; oz. 0c.

BLACK BEAUTY EGG PLANT.

MANGELS

Mammoth Long Red

The heaviest cropper. This Mangel is enormously, wonderfully productive. The flesh is red, of very fine texture and quality, containing less water and more sugar than any other Mangel, except it be the Half Long Sugar, making it most nutritious and milk producing. Sheep and other stock thrive better when fed on it, picking out pieces of it in preference to other kinds. Oz. 10c; 2 oz. 15c; $\frac{1}{4}$ lb. 25c; $\frac{1}{2}$ lb. 45c; lb. 80c.

Golden Tankard

A smooth, yellow-fleshed Mangel; roots are of large diameter, tapering quickly to the bottom, which is quite broad, with only a small tap-root. It grows largely above the soil and is easily harvested. It yields an enormous bulk on good soil and can be closely grown in rows. No root crop is a better paying investment for farmers to grow than Mangels.

Oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 80c.

MAMMOTH LONG RED

Brussels Sprouts

Long Island Improved

The Sprouts resemble miniature cabbages growing closely on the stalk of the plant. They are more tender and delicious than any cabbage. Hard frosts do not injure sprouts but improve them, and they are left in the garden until desired for cooking. Strip off the outer covering of the Sprouts and cook them whole. They are a delicacy not surpassed by the finest cauliflower. Pkt. 5c; oz. 20c.

BORECOLE or KALE

Dwarf German

Useful for furnishing greens or boiling during the early fall, winter and spring months. The leaves are very curly, bright green, tender and delicate in flavor. The plants are hardy and the quality is improved by freezing. Pkt. 5c; oz. 20.

COLLARDS—True Georgia

A tall, loose form of cabbage grown in the South as a substitute for cabbage, and extensively used there for the table as well as for stock feeding. It continues in growth and is usable all winter. Hardier, easier to grow, and can be grown in poorer soil than cabbage. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 40c.

I sent for seed last year and when I tried them they came up good and grew fine, and the radishes were the finest I ever grew.—Mrs. M. B. McRee, Kusa, Okla.

J. W. JUNG SEED COMPANY

SEED GROWERS RANDOLPH, WISCONSIN

EARLY JERSEY WAKEFIELD

Extra Early Express

The Best Extra Early Cabbage Ever Introduced.

The whole plant is finely bred; there is no suggestion of coarseness whatever. It has the peculiarity of heading firmly at an early stage in its growth, so that the finest Cabbage, though small, can be obtained long before it has attained its natural size. Ready for use in sixty days from time of planting. Heads are of good size, have but few outside leaves and therefore may be planted very close together and yield large crops. Always of fine flavor and very solid. Pkt. 10c; oz. 35c; $\frac{1}{4}$ lb. \$1.25.

Allhead Early

This variety has proved itself to be adaptable to a wide range of both soil and climate, and is well worthy of recognition as a standard American sort. It is the earliest of all large cabbage and considerably larger than any other early summer cabbage. The deep, flat heads are remarkably solid and the most uniform in color, shape and size of any other variety. Good quality and tenderness are marked features. It is suitable for growth in spring and early summer or for use as a winter sort. The heads grow so free from spreading leaves that fully one thousand more heads than is usual with large cabbage, can be grown to the acre. Seed grown in July and plants set in August, will produce good heads for wintering. It is a money maker for gardeners.

Pkt. 5c; oz. 30c; $\frac{1}{4}$ lb. \$1.00, postpaid.

ALLHEAD EARLY

CABBAGE

Early Jersey Wakefield

JUNG'S SPECIAL STOCK

The standard pointed-headed Cabbage throughout the United States.

The heads are uniformly hard and solid and are pyramidal in form, generally pointed at the end, with but few outside leaves. The outside leaves are usually thick and heavy, and it is thereby enabled to withstand more cold weather without injury when carried through the winter. Having but few outside leaves it may be planted close, so that more heads can be grown to the acre than with other sorts. It is exceedingly tender, fine grained, and as a copper no early cabbage can approach it. Size is ideal for marketing. Pkt. 5c; oz. 35c; $\frac{1}{4}$ lb. \$1.00.

EXTRA EARLY EXPRESS

Perfection Savoy

This is the hardest heading and best all-around SAVOY. Plants are of strong growth, having only a moderate amount of outer foliage growing closely around the large, solid heads. It is very sweet and crisp and always tender. The heads are beautifully blanching and of the finest flavor.

Pkt. 5c; oz. 30c; $\frac{1}{4}$ lb. \$1.00.

Red Drumhead

This is the well known Standard Cabbage. Heads are of large size, lightly rounded and from seven to eight inches in diameter. A valuable variety for pickling; very sweet, tender and of excellent quality.

Pkt. 5c; oz. 30c; $\frac{1}{4}$ lb. \$1.00, postpaid.

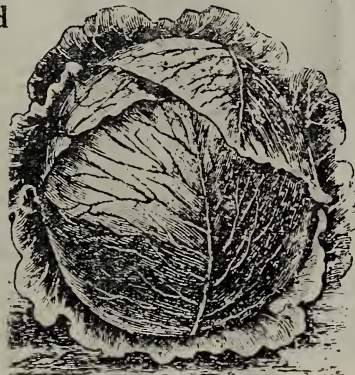

Surehead

A leading late variety. It produces large round, flattened heads of the Flat Dutch type and is remarkable for its certainty to head. The head are very uniform in size, extremely solid, fine in texture and flavor, and ordinarily weigh from 10 to 15 pounds each. It has but few loose leaves and is an excellent keeper. Pkt. 10c; oz. 30c; $\frac{1}{4}$ lb. 95c.

Short Stem Drumhead

This variety is uniform in heading and dwarf in growth. The heads appear to rest on the surface of the soil. It grows with little outer foliage, the leaves all folding in closely about the head which is very solid. It is a standard sort for winter keeping and sells readily in the winter and spring markets. With good cultivation heads attain a weight of 20 to 30 pounds and are of the finest quality.

Pkt. 10c; oz. 30c; $\frac{1}{4}$ lb. \$1.00.

SUREHEAD CABBAGE

SHORT STEM DRUMHEAD

J. W. JUNG SEED COMPANY

SEED GROWERS RANDOLPH, WISCONSIN

JUNG'S SPECIAL STOCK

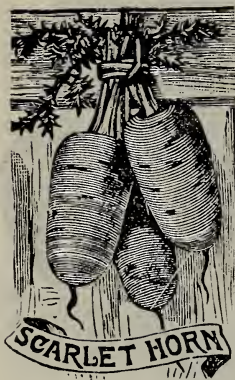

Danish Ballhead or Holland CABBAGE

(TRUE SHORT STEMMED STOCK)

This is rapidly coming into favor as the best of all late cabbages to grow for shipping, as the heads are almost as solid as rock, also an unusually good keeper. The plants grow quite compact, having few spreading leaves, and for this reason they can be set closer than other varieties. The splendid heads, which are very solid, are of fine quality and will keep unusually well. If you grow cabbage for shipping, or want something that will keep through the winter, plant this variety.

We import this seed direct from Denmark from one of the most reliable growers and are positive that our stock of seed is equal to the best. Beware of cheap seed!

Pkt. 10c; oz. 50c; 1-4 lb. \$1.35; lb. \$5.00.

CARROTS

Early Scarlet Horn

This is a popular early variety, three to four inches long, and is a great favorite for bunching for market and is sometimes used for forcing. Flesh is fine grained and a deep orange in color. It has a small tap-root and does fine in shallow soil. A fine table Carrot and when pulled young it is considered the best table sort.

Pkt. 5c; oz. 15c; ¼ lb. 45c.

Chantenay

This variety is desirable in all respects. It is stump-rooted and therefore very easily dug. Roots are very smooth, fine in texture and of a beautiful orange color. For table use it is considered to be the best of all, both on account of shape and quality. Although this is a medium early sort, it furnishes roots of usable size as early as any other variety, is a heavy cropper and undoubtedly one of the best for both the market and private garden, while its great productiveness makes it very desirable as a field sort.

Pkt. 5c; oz. 15c; ¼ lb. 35c.

Oxheart

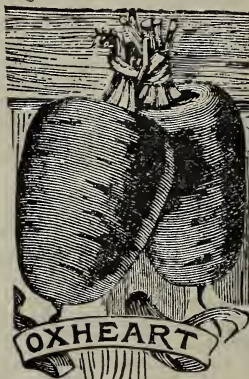

A magnificent carrot for general culture; indeed by many considered the best of all. It is very thick through, about 5 inches long, stump-rooted, often attaining a weight of five pounds. Flesh is a rich orange in color, very tender and sweet. We recommend this variety for both home and market gardens; especially adapted for hard or stiff soil; where longer varieties will not thrive.

Pkt. 5c; oz. 15c; ¼ lb. 30c.

LARGE WHITE BELGIAN

You will
make no
mistake by
planting
Jung's seeds

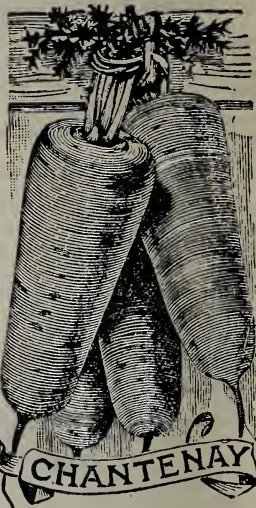

Large White Belgian

This is the heaviest cropping carrot grown, yielding more tons to the acre than any other sort. The flesh is white, crisp and solid and very sweet in flavor. The roots grow about one foot long and are heavy at the shoulder, making it easy to harvest. The roots frequently measure 14 to 18 inches in circumference, and 18 to 25 tons per acre is nothing unusual. Farmers should grow some of these carrots for their stock.

Pkt. 5c; oz. 15c; ¼ lb. 30c; lb. \$1.00.

A booklet on "making gardens" sent free with every order.

Jung's
seeds are
unexcel-
led.

Danvers

A handsome, half-long cylindrical, stump-rooted carrot of good size and of a rich, orange color. It grows to a large size, is smooth and the flesh very close in texture, with little core and a small, tapering tap-root. It is a good carrot for all soils and under good cultivation it has yielded 25 to 30 tons per acre. It is very easily harvested.

Pkt. 5c; oz. 15c; ¼ lb. 35c.

DANVERS

J.W. JUNG SEED COMPANY

SEED GROWERS RANDOLPH, WISCONSIN

CUCUMBERS

Emerald

A symmetrical dark green Cucumber which holds its color a long time after being picked. It is strictly an evergreen, retaining its color until quite ripe, making it an attractive variety. The fruits set early, and its vigorous vines abound in long, straight, handsome fruits of the most desirable qualities. As a slicer, the flesh is perfectly crisp and tender, and the flavor most pleasant. The young fruits being a dark green, straight, slender and almost spineless, makes an excellent pickle, and when ripe none excel it for making sweet pickles. Good for forcing under glass or long distance shipping.

Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 35c.

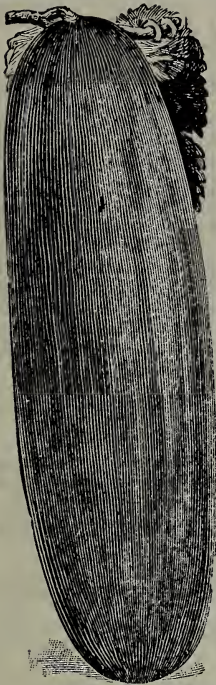

Everbearing

This is a very early variety and extremely prolific. If the fruits are kept gathered, vines will continue in bearing throughout the season. The fruits, of a rich, dark green color, average from four to five inches in length by an inch and a half in diameter. Owing to its great productiveness, it is a fine variety to plant for producing small pickles.

Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 35c, postpaid.

EVERBEARING

EMERALD CUCUMBER.

Extra Early White Spine

A dark green, handsome Cucumber, often attaining a length of 12 inches, and straight and attractive in shape. It makes a hard, brittle pickle when small and a grand table variety when large. Excels in earliness, often ready for slicing when other sorts are only pickles. Vines are vigorous growers and bear large crops. It makes a valuable variety to plant for early market. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 35c.

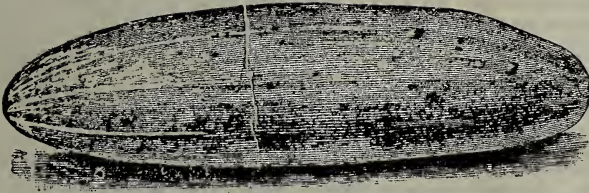

EXTRA EARLY WHITE SPINE

Fordhook Famous

The longest white spine, finest flavored of all Cucumbers. This is the handsomest of all long green cucumbers; always straight and well formed, they never turn yellow. Critical buyers are willing to pay an extra price on market for these unequalled fruits. The vines are of strong, vigorous growth, with heavy foliage, and set the extra large fruits freely throughout the season. The cucumbers are smooth and

regular in form, averaging 12 to 14 inches in length, and have a very thin and tender skin. The flesh is very thick, crisp and exceptionally mild in flavor. The cucumbers are about all flesh, as the seed spaces are very small. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 35c.

FORDHOOK FAMOUS

usually 8 to 10 inches long, and is very uniform. In season almost the same as White Spine, but keeps in eatable condition longer. Its smooth, clear surface makes this an ideal pickle. The firm, crisp flesh with its pleasing flavor, is just right for slicing or in salads. WHITE WONDER furnishes you Quantity and Quality. A packet of seed yields Cucumbers in abundance for canning, pickling and slicing. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 35c.

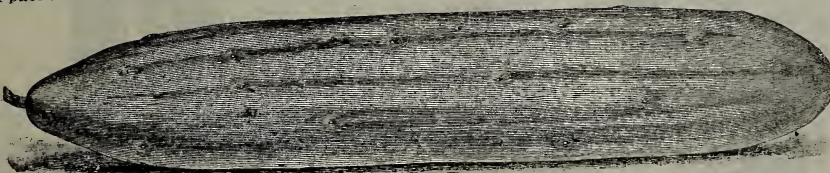

White Wonder

NOT A FREAK—But a wonderfully good slicing cucumber.

In color it is a beautiful pure snow white. Grows to good size,

WHITE WONDER

POP CORN—White Rice

This variety is the best for popping; grains pointed; pops full and white; ears large-sized and very handsome, productive and of excellent quality; very crisp and delicious. Pkt. 5c; $\frac{1}{2}$ pt. 20c; pt. 30c; pt. 35c.

SEED GROWERS

SEED COMPANY
RANDOLPH, WISCONSIN

CAULIFLOWER

Dry Weather

Especially adapted to resist drought. Reaches perfection where ordinary sorts fail. Preeminently the best early variety for the family garden and also for market gardeners in sections which are not especially adapted for cauliflower. Plants are of vigorous growth, producing large, solid heads of snowy whiteness and fine quality. It has heavy foliage and is not liable to rot in hot weather. It is in all respects a first-class cauliflower, but is particularly adapted to dry situations and to resisting the effects of drought. It also does well in wet or moist situations, producing heads equal to the best.

Pkt. 15c; 1-2 oz. \$1.50; oz. \$2.50.

Autumn Giant Cauliflower

This is a large variety with fine, well proportioned heads. The heads are so well protected by the foliage as to remain fit for use a long time. Suitable for late planting. Quality excellent.

Pkt. 10c; oz. 60c.

DRY WEATHER CAULIFLOWER

White Plume Celery

This is the earliest and most easily blanch celery. The plants grow rapidly and blanch easily during the summer months. Later in the fall the central stalks and leaves are of pure snowy whiteness, even without earthing up; but stalks should be gathered together and earthed up as in the other varieties, so as to produce close, attractive bunches. As for succulence, crispness and quality, the White Plume is unequalled.

Pkt. 5c; oz. 30c.

GOLDEN SELF-BRANCHING

The most popular of all Celeries for winter.

It grows very stout, thick and very heavy, with a much larger heart than any other variety. It is a close, compact grower, blanches to a beautiful creamy white and is showy and attractive in appearance when ready for table use. The stalks are solid, crisp, and of a rich, nutty flavor. It bunches up handsomely and presents an attractive appearance on the market.

Pkt. 5c; oz. 20c.

Giant Pascal

One of the most popular sorts for winter use. It grows about two feet high, the stalks are thick, solid and stringless and almost as brittle as glass. The stalks are of strong growth, wide and thick, quite heavily ribbed, very brittle and crisp when nicely blanch, making large bunches. It blanches easily and keeps well. Especially recommended for the south where it is prized more than any other kind.

Pkt. 5c; oz. 20c.

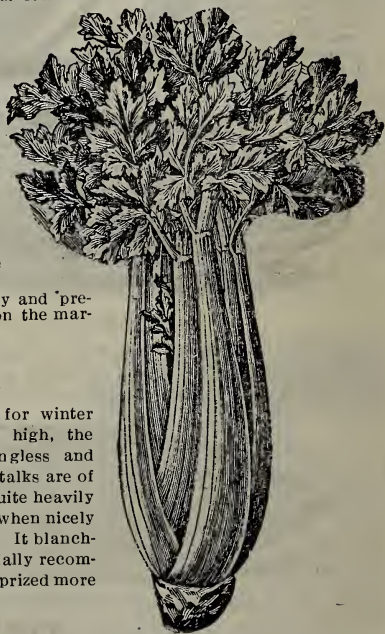

CELERY

Golden Self-Blanching

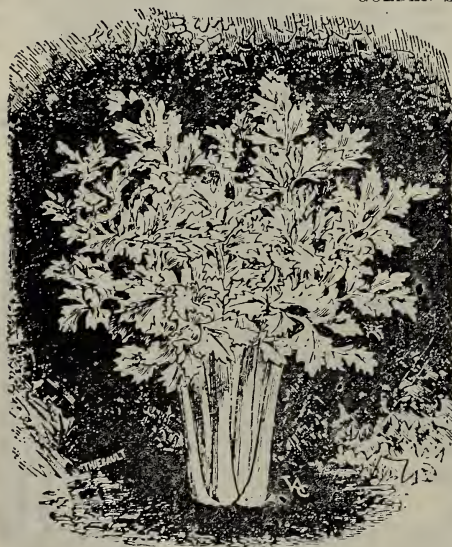

The best of all self-blanching varieties. It is without doubt the most popular celery grown. The ribs are perfectly solid, crisp, brittle and of a delicious flavor, which is not surpassed by no other variety, while it has the decided merit of being self-blanching to a remarkable degree. It is extensively grown for market and private use, not only on account of its easy culture but for its superior quality. The hearts are large and hard and blanch to a beautiful golden yellow. When grown in moist soil the stalks are numerous and large in size.

Pkt. 10c; oz. 50c.

Winter Queen

WINTER GREEN

WHITE PLUME

J. W. JUNG SEED COMPANY

SEED GROWERS RANDOLPH, WISCONSIN

GROUND CHERRY

The introducer says: "It is very good for canning, preserving and pies. Dried in sugar as raisins or figs, they are excellent; handsome yellow color and will keep until January. Produces fruit of strawberry flavor in great abundance, from 1 to 2 inches in diameter; highly prized." Per pkt. 5c.; 3 pkts 10c.

KOHL RABI

PURPLE VIENNA

This vegetable is grown for its turnip-shaped bulb, which is grown above the ground. Excellent for soups or cooked in the same manner as turnips. Grows to a large size and of juicy quality. Very early and of fine shape and delicate flavor.

Pkt. 5c; oz. 20c.

WHITE VIENNA

This vegetable is grown for its turnip-shaped bulb, which is formed above ground. Excellent for soups or cooked in the same manner as turnip. The bulbs should be used while young and tender. The best for table use. Pkt. 5c; oz. 25c.

CRESS—Fine Curled. An annual, making a good salad. Leaves are finely cut and feathery, like a good parsley. It is dwarf and compact in growth. Very ornamental, of quick growth, crisp and refreshing. Pkt. 5c; oz. 15c.

LEEK. Most highly esteemed for flavoring soups, stews, etc. The plants are of strong, vigorous growth and have extra long stems which branch to a snowy whiteness and are of delicious flavor. Cultivate the same as for onions, Pkt. 5c; oz. 25c.

OKRA—White Velvet. The long tender pods of Okra are very delicious when sliced and cooked in soups. While this is its chief use, it can be boiled and served like other vegetables. The pods should be gathered while young, as they are then very tender. Pkt. 5c; oz. 10c.

MUSTARD—Gigantic Thick Leaved

Gigantic Thick Leaved. — Each plant produces a great number of large, thick leaves which are of the finest flavor. Grown in rich soil the leaves attain a height of two feet. It is excellent for boiling. Pkt. 5c; oz. 10c.

I am well pleased with the seeds I received from you. — Walter Davern port, Garden City, Mo

PARSLEY

Moss Curled

The leaves are of an extra dark color. It is very productive and on account of its densely curled character of leaves, a large quantity can be gathered in a short time.

It is much used for flavoring and garnishing. Pkt. 5c; oz. 15c.

A splendid novelty, very striking in color and a most wonderful yield; of bright orange colored fruits about the size of an orange. Vines grow some what smaller than muskmelon. For sweet pickles and preserving they are splendid. Per pkt. 5c.; 3 pkts. 10c., postpaid.

THE EARLIEST

HERBS

Herbs delight in a rich mellow soil. Sow in early spring in shallow drills 1 foot apart; cover lightly with fine soil, and when up a few inches thin out or transplant into prepared beds. Care should be taken to harvest properly. Do this on a dry day, just before they come into full blossom; dry quickly in the shade; pack closely in bottles or tight boxes to exclude the air.

ANISE

Used for cordials, garnishing and flavoring. The seeds have an aromatic taste. Pkt. 5c.

SAGE

Sow in rich ground and thin out the plants to stand 15 inches apart. Used for flavorings and dressings. Pkt. 5c.

DILL

This herb is used in large quantities in the making of Dill Pickles; also for flavoring vinegar. Pkt. 5c; oz. 20c.

MAJORAM SWEET

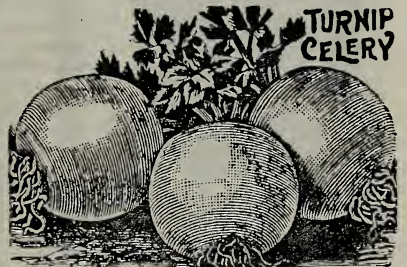

The leaves and end of the shoots are esteemed for seasoning in summer, and also dried for winter use. Pkt. 5c.

SUMMER SAVORY

The leaves and flowers are used extensively for flavoring, particularly in soups and dressings. Pkt. 5c.

THYME

The leaves are used for seasoning. Pkt. 5c.

TURNIP ROOTED CELERY or CELERIAC

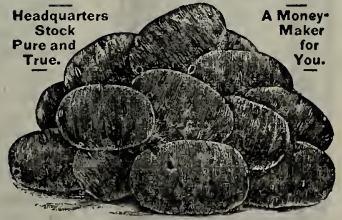

This is an excellent vegetable. It produces large turnip-shaped roots which keep well for winter use. It is highly esteemed either cooked in the same manner as other vegetables for flavoring soups, or sliced and used as a salad. Pkt. 5c; oz. 20c.

potatoes of all conceivable colors, shapes and sizes—50 or more new varieties. One may make your fortune. This may be your last chance to obtain this rapidly vanishing seed. Please tell your friends.

Packet with full Directions for Growing, 15 cts. 4 for 50 cts. 10 for \$1.00.

SWEET CORN

Early Fordhook

One of the earliest varieties of SWEET CORN in cultivation. The ears are large, averaging from 6 to 8 inches in length. Ears are eight-rowed, with quite small cobs and deep grains. The seed is of exceptional hardness, admitting to early planting. The stocks are of sturdy, vigorous growth, 3 to 4 feet high, with abundant foliage, and generally produce two fine ears to a stock. Both grains and cobs are of pure white color.

Pkt. 5c; $\frac{1}{2}$ pt. 20c; pt. 30c; qt. 60c.

Premo

A LEADING EARLY VARIETY. It combines all the merits of the leading early varieties, but is superior to them in size, quality and yield.

PREMO is very hardy and may be planted sooner than other varieties. The stalks grow about five feet high and are very vigorous, generally bearing two well developed ears to a stock. Its earliness and table quality is sure to bring it into favor with all gardeners.

Pkt. 5c; $\frac{1}{2}$ pt. 20c; qt. 55c.

Golden Cream

A new variety with long pointed kernels like Country Gentlemen, which are closely set on a very slender cob.

The flavor is remarkably sweet. When at eating stage the ears are cream colored but are decidedly yellow when cooked. The ears are ready for use about a week later than Golden Bantam and are from 6 to 7 inches long, with 12 to 14 rows of deep and rather slender grains. It is good enough to eat raw. The stalks are rather dwarf and bear from two to four fair-sized ears each.

Pkt. 5c; $\frac{1}{2}$ pt. 20c; pt. 35c; qt. 55c, postpaid.

POP CORN

Bantam Rice

The Bantam Rice is a dwarf growing corn, a heavy yielder of attractive ears which are very thick and yield an unusually large quantity of shelled corn. The kernels are similar to the best strains of White Rice, only they are longer and slimmer and pearly white in color.

Its greatest merit, however, lies in its superior popping qualities, there being hardly any hull or shell when popped.

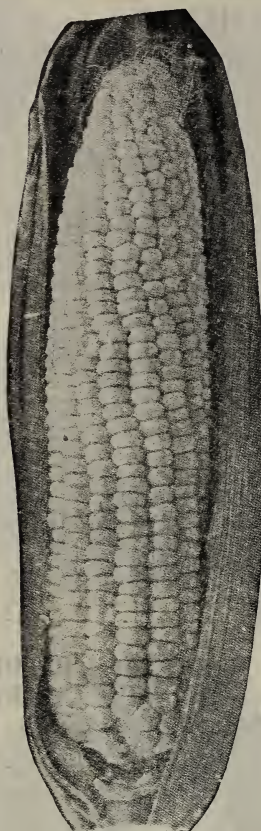

It is most tender and delicious when popped, as it fairly melts in your mouth.

It combines both quality and quantity, being a heavy yielder and superior to any other variety in quality. Try it once and you will not be without it again.

Pkt. 10c; $\frac{1}{2}$ pt. 20c; pt. 30c; qt. 60c, postpaid.

SEED GROWERS RANDOLPH, WISCONSIN

The Three Leaders Among Sweet Corn

GOLDEN BANTAM

The Best, the Largest, the Sweetest of all Early Sweet Corns, Retaining Its Delicate Tenderness Even When a Little Old.

This variety is pronounced the favorite because of its extreme early character, vigorous growth and surpassingly delicious flavor. It is the ideal garden Sweet Corn, with the richest flavor of all. Besides being early it is very hardy and permits of the earliest planting. Especially recommended for Northern States, also desirable for warmer locations, because the ears are protected by good firm husks, and is not liable to smut.

The stalks are dwarf in growth, averaging four feet in height. The ears are from 5 to 7 inches long and the grain is a bright golden yellow color. In flavor it is exceptionally rich and sugary, and by every one admitted to be the finest flavored Sweet Corn. The small stalks can be planted closely together. For productiveness and quality it leads all varieties.

Pkt. 10c; 1-2 pt. 20c; pt. 35c; qt. 65c, postpaid.

BANTAM EVERGREEN

Golden Bantam Crossed With Stowell's Evergreen.

This variety of golden or yellow Sweet Corn combines the size of the Evergreen ear with the color and delicious quality of the Golden Bantam. In crossing these two excellent varieties none of the good qualities of either has been lost, rather it surpasses them in sweetness and tenderness. The ears are 7 to 9 in. long, well filled with deep kernels of rich yellow corn. Not an extra early sort, yet it comes just right in season to follow the first early sorts. The larger ears and prolonged season make it the favorite, both in the home garden and for fancy market trade. All lovers of Sweet Corn must at least give Bantam Evergreen a trial.

Pkt. 10c; ½ pt. 20c; pt. 35c; qt. 65c, postpaid.

WHITE EVERGREEN

The Leading Late Variety of Sweet Corn

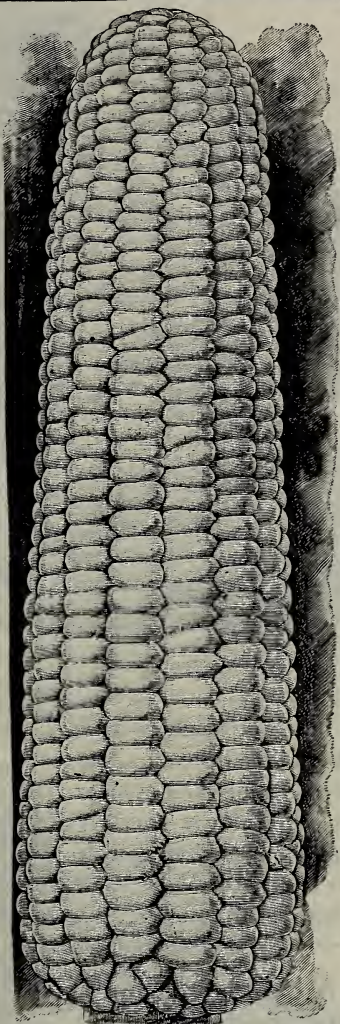

The most valuable Sweet Corn ever produced.

White Evergreen is much superior to Stowell's. It retains all the most desirable features, with the added merits of pure whiteness; in color, a more tender grain and distinctly sweeter flavor. The ears average very large and are well filled to the tips with the long sweet grains of pure whiteness and most delicious flavor. The stalks are very strong growers, from six to seven feet high, and sometimes bear three fine ears to a stalk. The ears contain 16 or more rows of deep grains which are protected by a thick heavy husk.

Pkt. 5c; ½ pt. 20c; pt. 30c; qt. 60c.

GOLDEN BANTAM

BANTAM EVERGREEN

SPECIAL OFFER

These three great Sweet Corn should be planted in every garden. As a special inducement we make the following offer.

One pkt. of each for 20c. One-half pint of each for 50c.
One pint of each for 85c.

PEANUTS Early Virginia

This splendid variety is very desirable because so early and prolific. It grows perfectly erect. Planted in April they ripen in August and will mature a good crop before frost. It is in every particular a very satisfactory variety to grow. Can be grown in the north.

Pkt. 5c; pt. 25c; qt. 45c.
By express, qt. 35c.

J.W. JUNG SEED COMPANY

SEED GROWERS RANDOLPH, WISCONSIN

JUNG'S ALL CREAM LETTUCE

LETTUCE

Jung's All Cream

This remarkable Lettuce does not head, but makes a large loose bunch of leaves of superlative fine quality. The leaves grow upright, the upper part of the outer leaves turning outward very gracefully, and are handsomely wrinkled. The inside leaves are almost white and wonderfully crisp and tender. It grows quickly, is ready for use early, and remains for weeks. It is the cream of all sorts and should be grown in every garden.

Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 35c.

I have planted your seeds for the past few years and must say it is the best seed that I can buy. I would not know where to go to get any better, and I always come back to the J. W. Jung Seed Co.

—Miss Estella Blanchard, Montpelier, Vt.

DEACON
LETTUCE,
from a
Photograph

Deacon

This magnificent lettuce stands hot weather better than any other of the rich butter varieties. Plants make firm heads, nearly as large and almost as solid as a cabbage. The heads are light green outside, while the inner blanched portion is cream-yellow and of a delicious, rich buttery flavor.

Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 35c, postpaid.

Big Boston Lettuce

Select Stock

This is a fine forcing variety for cold frames during the winter months, as it produces heads of large size, often 10 to 12 inches across, and succeeds better in a cooler temperature than most forcing strains. The large heads are beautifully blanched and of superior quality. It heads well also in the open ground during the cool weather of spring and fall, and is very popular in the south for shipping north. Our seed is the choicest it is possible to produce.

Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 35c.

BIG BOSTON LETTUCE

J.W. JUNG SEED COMPANY

SEED GROWERS RANDOLPH, WISCONSIN

LETTUCE—Continued

May King

This variety is not in the least affected by cold or wet weather, but produces large solid heads, 10 to 14 days ahead of most other varieties. The plants grow from 6 to 7 inches in diameter, with the outer leaves folding closely, forming the plant into a solid head. The outer leaves are light green, slightly tinged with brown; the inner leaves are light yellow and of a fine rich, buttery flavor.

Pkt. 5c; oz. 15c; 1-4 lb. 35c.

Grand Rapids

A well known forcing variety. It does not form heads but makes large bunches of light green leaves with fringed edges. Its upright habit of growth permits close planting. It will make a quick growth under adverse conditions and is not subject to rot. Quality excellent.

Pkt. 5c; oz. 15c; 1-4 lb. 35c.

New Iceberg

The usual solidity of the heads is assured by the large white main ribs of the leaves, each of which, curving strongly into the center, acts like a truss, making it impossible for the leaves to open outward and expose the center, which is thoroughly blanched. It is quick growing and always crisp and tender, whether grown in early spring or in the hot days of summer. The heads are of good size.

Pkt. 5c; oz. 15c; 1-4 lb. 35c.

MAY KING

You should grow LETTUCE largely for your table. Nothing is more wholesome, and if you once acquire the habit you will wonder how you ever enjoyed a dinner without this delightful salad. Our stock is extra fine. Our packets contain one-fourth ounce of seed.

Here we are sending you another order, as we got your seeds and they surely were nice full packages. — Chas. Murphy, Spooner, Wis.

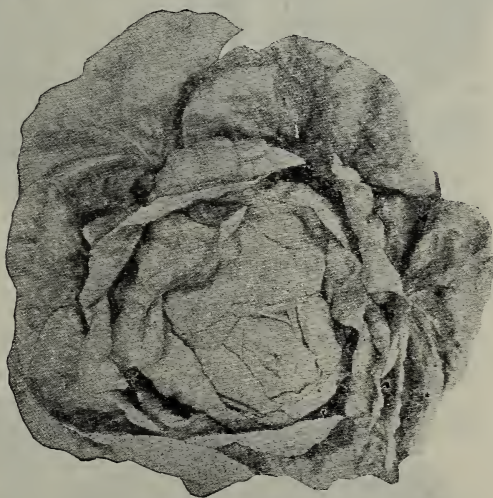

Jung's Tenderheart

VERY TENDER! SURE HEADER!

SUCCEEDS EVERYWHERE!

A wonderful heat resister. Splendid for summer use. Medium size, light green and forms a hard, buttery head of fine quality which branches to a creamy white color. Grows compact and globular in form; leaves broad and much blistered. A very satisfactory head lettuce for the home garden, as it can be planted any time during the season. Excellent for summer salads. Prices by mail, postpaid: Pkt. 5c; oz. 15c; 1-4 lb. 35c.

JUNG'S TENDERHEART LETTUCE

The greatest Seed Bargains of this year are offered on inside back cover. Include them in your order.

MUSK MELONS

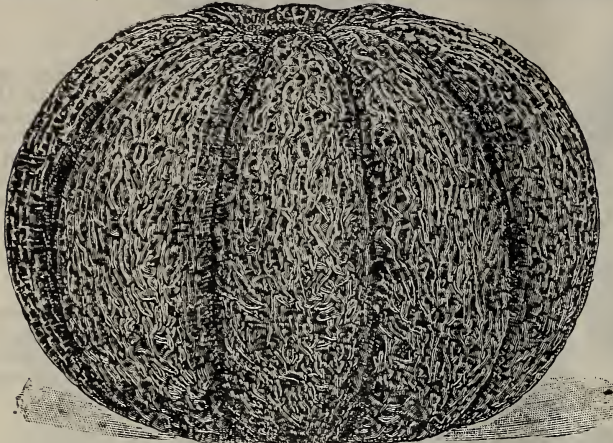

Burrell's Gem

A popular salmon fleshed melon. The melons are 6 to 7 inches long by 4 to 5 inches in diameter, rather sharply sloping at the ends. They are quite well ribbed and covered with a fine grayish netting. The flesh is thick and firm, ripening close to the skin, leaving only a thin rind. The skin is a rich dark green, contrasting finely with the deep orange-salmon colored flesh, which is very sweet and tender.

Pkt. 5c; oz. 10c; 1-4 lb. 30c.

J. W. JUNG SEED COMPANY

SEED GROWERS RANDOLPH, WISCONSIN

NEW FORDHOOK MUSK MELON

MUSK MELONS—Continued.

New Fordhook

The finest flavored and sweetest Musk Melon in cultivation. Fully equal to Emerald Gem in flavor. So firm is the rough netted skin and so solid the thick salmon flesh that the melons carry to market even better than Emerald Gem. The flesh is very thick, of an attractive deep salmon color and surpassingly sweet to the very rind. The flesh is not only very thick but also extremely solid. The rind, although thin, is usually firm, so that the fruits carry well to market. It is most vigorous in growth, very early and extremely prolific. Each vine sets from five to nine melons around the stem and frequently touch one another. The melons are very even in size, weighing from 1½ to 2 pounds each. For handsome appearance, extreme earliness, great productiveness and superb quality, it is unexcelled. Be sure to give NEW FORDHOOK a trial.

Pkt. 10c; oz. 20c; 1-4 lb. 40c, postpaid.

Gold Lined Rocky Ford

This popular melon has been on the market for the past three years and has met with universal satisfaction wherever tried. We consider it the best type of Rocky Ford Melon grown for shipping and market gardeners' trade. Its quality and productiveness are unsurpassed, every melon being marketable. Every care possible has been exercised in breeding this melon to a uniform type for an ideal crating melon, and it will carry farther in good condition than any other melon we are acquainted with. It is green fleshed with a good lining next the seed cavity, heavily netted and rust resisting.

Pkt. 10c; oz. 20c; 1-4 lb. 50c.

GOLD LINED ROCKY FORD

Paul Rose

This variety combines all the good qualities of Netted Gem and Osage, the varieties from which it originated, possessing the sweetness of the latter and the finely netted appearance of the Gem.

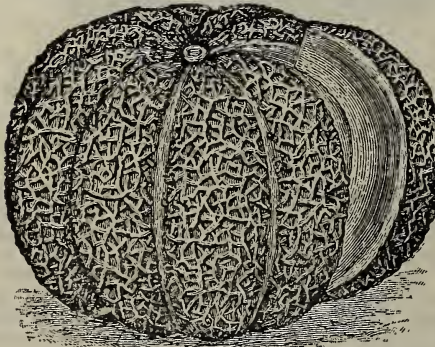

The fruits are nearly round or slightly oval and of a light green color when fully ripe. The flesh is thick, of a rich orange color, and ripens close to the rind. Its firm flesh makes it an ideal shipper.

Pkt. 5c; oz. 10c; 1-4 lb. 30c.

Netted Gem or Rocky Ford

(SELECT STOCK)

One of the most popular green fleshed Musk Melons. In the hands of Rocky Ford Growers it has made Colorado famous in eastern markets for melons of UNEQUALLED QUALITY. The vines are exceedingly healthy and vigorous, bearing an enormous quantity of fruits during the entire season. The color of the skin is a rich greenish gold; the netting is prominent and light in color, appearing very attractive. The flesh is deep, ripening clear to the rind, very solid, yet thoroughly melting. It is very sweet and luscious in flavor. No melon comes to market that sells as readily and at such prices as the Rocky Ford, often to the exclusion of other varieties. Pkt. 5c; oz. 15c; 1-4 lb. 35c.

EXTRA EARLY HACKENSACK

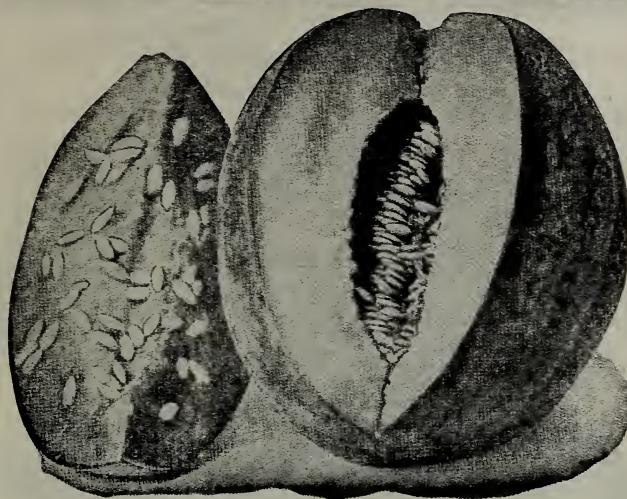

NETTED GEM OR ROCKY FORD

Extra Early Hackensack

This is a selection of the popular Hackensack, but ripens fully ten days earlier. A bountiful yielder and one of the most extensively grown of all Musk Melons. It is a large round variety, flattened at the ends, well ribbed and deeply netted. The flesh is green, inclining towards yellow at the center, and of the most delicious flavor. Fruits attain a good size and vines make good strong growth and bear abundantly; a good shipper. Pkt. 5c; oz. 15c; 1-4 lb. 35c.

J. W. JUNG SEED COMPANY

SEED GROWERS RANDOLPH, WISCONSIN

NEW OSAGE

MUSK MELONS—Continued

New Osage

An excellent main crop, medium to large, oval, salmon fleshed melon. The vines are vigorous and productive. The fruits are slightly oval, dark green, slightly ribbed and partly covered with shallow gray netting. The flesh is rich orange-salmon, very thick and fine grained and highly flavored. Of vigorous growth, the foliage is of such firm texture that the vines resist the attacks of insects and blight. It is very prolific for so large a variety, frequently producing as many as ten large melons to a vine. The seed cavity is so small that there is no tendency towards cracking open at the blossom end.

Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 35c, postpaid.

New Model

Spicy Green Flesh, Small Seed Cavity.
A PRODIGIOUS BEARER.

The Model is an early cantaloupe, about twice the size of Rocky Ford, and more productive. It is almost round, the flesh is thick and firm, green-colored, while in delicacy and flavor it is unexcelled. The flesh extends from the rind almost to the center of the melon. The Model bears transportation well and can be carried to distant cities without injury. The average weight per melon is over two pounds. No one who wants good melons for either home or market use, should fail to plant this variety. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 40c, postpaid.

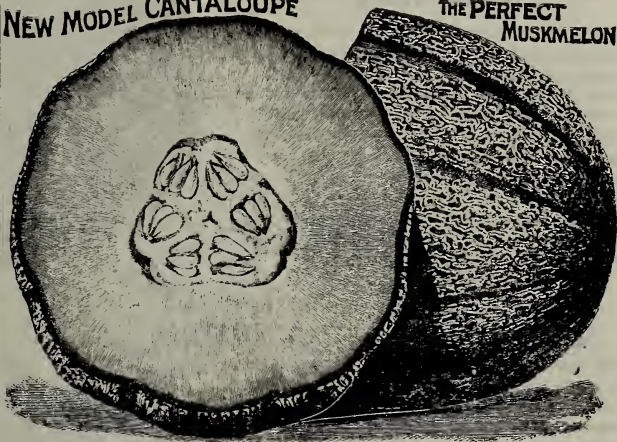

"LUCULLUS,"—
THE NEW
SWISS CHARD.

Swiss Chard—Lucullus

Plants grow two feet high and consist when fully developed of about a dozen creamy white, attractive curled leaves. These leaves are carried on broad, thick stalks about 12 inches long. The leaves may be cooked in the same manner as Spinach. Pkt. 5c; oz. 15c.

NEW MODEL CANTALOUPE

THE PERFECT MUSKMELON

Preserving Citron or Melon

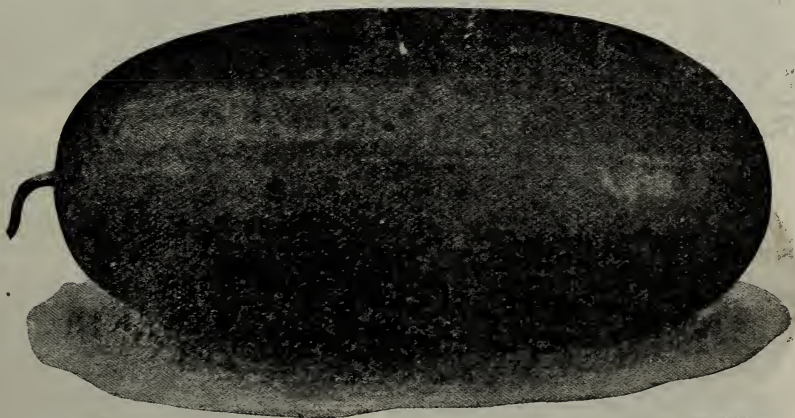

A large fruited variety, pure white flesh and thin rind. This is expensive when bought, yet can be grown and preserved by any energetic housewife, who will then also know it to be absolutely pure and good. It is planted like watermelon. Price, large pkt. 5c; 1 oz. 15c; $\frac{1}{4}$ lb. 35c.

Water Melons

Kleckley Sweets

There probably is no watermelon superior in quality to a good strain of Kleckley Sweets. The bright red flesh is the ideal of watermelon quality—firm, crisp, entirely free from stringiness and "sweet as sugar." The melons are oblong in shape, about 20 inches long by 10 to 12 inches in diameter. The rind is dark green, thin, brittle, and for this reason is not a good shipper for distances over 100 miles, but for home use or close markets it is in a class by itself. Our seed is an extra select strain.

pkt. 5c; oz. 15c; 1-4 lb. 25c; 1 lb. 85c, postpaid.

WATER MELONS — Continued

Harris Earliest

THE BEST SHIPPER IN THE EARLY CLASS

☐ This is the sweetest early melon, the largest early melon and the best shipping early Melon.

It is slightly oblong, broadly striped light and dark green. Flesh is bright red, sweet and crisp; seed black. The vines are vigorous and productive, growing melons weighing 15 to 20 pounds. Plant this strain for home gardens ready for use before other melons begin to ripen. Maturing in 60 to 70 days it is just the kind for northern latitudes. Harris Earliest beats all competitors for early shipping and is first on the market. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 30c.

Fordhook Early

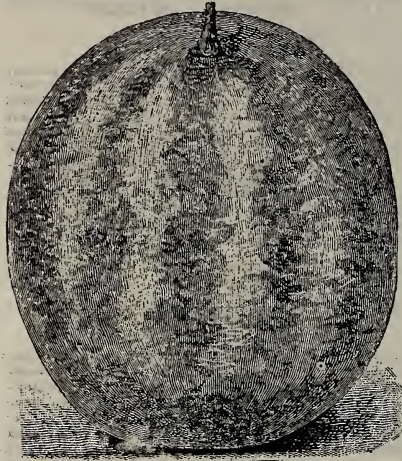

This is the only extra early Water Melon we have that is of good size and quality. The fruits are of large size, rather short and blocky in form with large diameters. Flesh is bright red, crisp, sweet and of splendid quality. The quality continues to improve after ripening. The heart is large, there is but little seed cavity and very few seeds. The vines are of strong, vigorous growth, setting large melons in good numbers. Skin is dark green, occasionally with faint stripes of light green. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 30c.

Dark Icing

A nearly round, white seeded Water Melon, with very thin rind. The flesh is deep pink and of delicious sweetness.

Fruits large, very dark skinned and of attractive appearance. The vine is a remarkably strong grower and heavy bearer. It is an excellent shipper, notwithstanding its thin rind.

Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c.

HARRIS EARLIEST

Sweet Heart

A large Melon nearly globular in shape but a little longer than thick. Fruits are large and heavy, skin a very pale green, with distinct netted lines of a slightly richer shade. The solid flesh is a rich deep red, crisp and melting. Its excellent quality has made it a leading favorite on the market. The vines are vigorous and productive, ripening the fruits quite early. A good keeper and a good selling melon, being attractive and of good quality. The handsome fruits bear shipping well.

Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c, postpaid.

Dixie

A Water Melon of highest quality and value. The size is large, specimens of 50 pounds being not infrequent. Flesh is scarlet, very fine and extra firm. The variety is the most prolific known, often producing six to eight melons on a single vine. The vines root at the joints and thus become more drought resisting and vigorous. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 20c.

Tom Watson

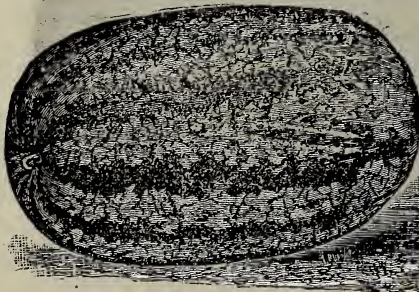

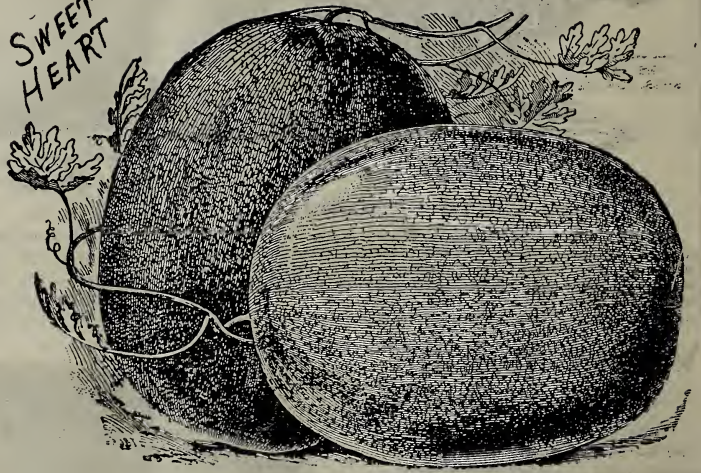

BEST QUALITY! BEST SHAPE! BEST SHIPPER! BEST SIZE AND BEST APPEARANCE

The Tom Watson is an extra large melon of attractive appearance, uniform in shape and quality. The luscious crimson flesh is "sweet as honey," melting and of superb flavor. The average melon weighs from 35 to 40 pounds and measures about 20 inches in length and 12 inches in diameter. It is very prolific, producing in greatest abundance the delicious fruits. The dark green rind is tough, but thin and easily withstands shipment to far distant markets. The heart is large with no sign of core.

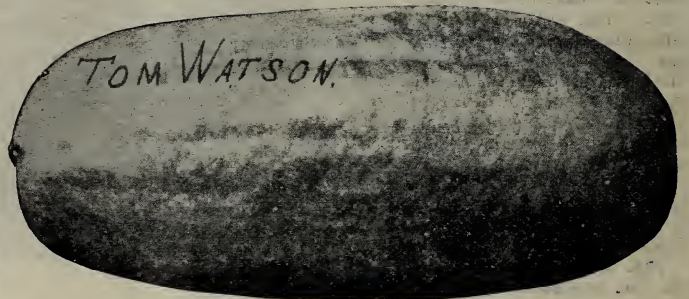

Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 30c.

SOUTHPORT
YELLOW
GLOBE.

Three True Globe Onions

The Southport Globe Onions have increased wonderfully in public favor during the past few years, and they well deserve their popularity. In almost all markets they invariably bring top prices. They are not only of handsome appearance, remarkable solidity and good keepers, but also fully equal in yield to the best strains of any variety.

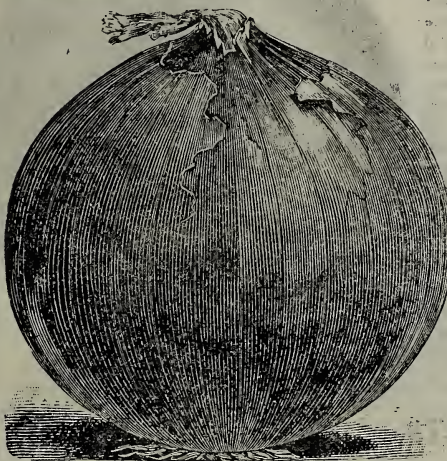

Southport Yellow Globe

This is one of the most satisfactory and popular varieties raised for family use or market. It is an enormous yielder, hardy and reliable, making under normal conditions often up to 1000 bushels per acre. The onions are models of perfection, growing uniformly deep and globular in shape, veritable globes of gold, and extra large, averaging nine to ten inches in circumference. The color of the skin is an attractive golden yellow, the flesh snow white, firm, mild and juicy. The small necks enable the onions to ripen down evenly, insuring good keeping qualities.

Pkt. 10c; oz. 25c; 1-4 lb. 70c; lb. \$2.40.

Southport Red Globe

A handsome onion of immense size, averaging from 9 to 10 in. in circumference, solid, heavy and of perfect globe shape. The skin is a glossy, deep purplish red color; the flesh is close grained, sparkling white, cooking tender and mild. It is hardy, a splendid keeper and a big yielder, averaging under good culture from 800 to 100 bushels per acre. Our strain of this seed is unsurpassed, the bulbs being selected for largest size, solidity, brilliant rich color and typical globe shape, with small necks, thus insuring thorough and regular ripening and curing. You will make no mistake in giving this onion a trial. Pkt. 10c; oz. 25c; 1-4 lb. 65c; lb. \$2.50, postpaid.

SOUTHPORT RED GLOBE

Southport White Globe

The most beautiful onion grown, being of symmetrical globe shape with a smooth satin-like skin, forming a perfect silver ball. It grows to a large size, averaging 7 to 9 in. in circumference, and is solid and heavy; the flesh is purest white, close grained, mild and of delicate flavor. Owing to its large size, it is later in ripening than the White Portugal or silverskin. As soon as ripe the bulbs should be stored in a cool, dark shed or dry cellar. It is a heavy cropper and for the family garden as well as for market, it is a valuable onion.

Pkt. 10c; oz. 30c; 1-4 lb. \$1.15.

Prizetaker

THE KING OF ALL YELLOW GLOBE ONIONS

This is one of the largest Onions in cultivation. It is a large, beautiful Spanish variety, so often seen in the fruit stores and markets of the large cities.

Bulbs are nearly globe shaped, with a bright, straw-colored skin, growing to an immense size the first season from seed. They ripen up without stiff-necks and present a very handsome appearance. The flesh is pure white, fine grained, delicious and mild in flavor; fine for fall and early winter use. Bulbs measure from 12 to 14 inches in circumference, and under special cultivation specimens have been raised weighing five pounds each. In the markets they attract special attention and sell rapidly at good prices. Pkt. 10c; oz. 30; 1/4 lb. 85c; lb. \$2.95, postpaid.

Australian Brown

This remarkable Onion is of medium size, wonderfully hard and solid and most attractive for market, both in form and appearance. They are extremely early in ripening and make no stiff-necks or scallions. Every seed seems to produce a good size Onion, and the bulb begins to form very quickly when the plant is not over three inches high. It has the reputation of keeping indefinitely and we think from its firmness and hardness that it will keep in good condition longer than any other Onion known. The color of the skin is a clear amber brown.

Pkt. 5c; oz. 20c; 1/4 lb. 60c; lb. \$2.00, postpaid.

AUSTRALIAN BROWN

FOR BEST RESULTS PLANT JUNG'S QUALITY SEEDS

J.W. JUNG SEED COMPANY

SEED GROWERS RANDOLPH, WISCONSIN

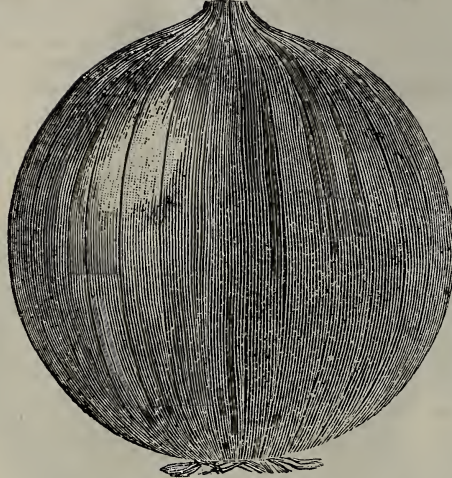

LARGE RED WETHERSFIELD

Yellow Globe Danvers

This is a standard yellow Onion and is more largely grown than almost any other variety. The bulbs grow to about 2½ inches in diameter, are nearly globe shaped and of a light golden brown color. The flesh is pure white; the bulb is extremely hard and solid, and its earliness, sure cropping character, handsome appearance and excellent quality have placed YELLOW GLOBE DANVERS among the leading varieties for the home or market garden. It forms a bulb very early in the season, so that it may be used almost all summer, and ripens crisp and solid in the fall. It is a very heavy cropper. Our strain of this variety is unsurpassed.

Pkt. 10c; oz. 25c; ¼ lb. 85c; lb. \$2.60.

YELLOW GLOBE DANVERS

The first step towards big crops—
Plant Jung Quality Seeds.

ONIONS—CONTINUED

Large Red Wethersfield

The most popular red variety. It is very productive, having yielded over 1000 bushels per acre. It is not an early ripening sort, but continues in growth throughout the season, and consequently makes a very large onion; the bulbs are large, though somewhat flattened, as shown in the illustration. The outer skin is a deep purplish red, with flesh white, slightly tinged with rose. It is a fine keeper, suitable for late winter markets. The flavor is good and mild, admirable for boiling. The best variety for poor or dry soils. You will make no mistake by giving this variety a trial.

Pkt. 10c; oz. 25c; ¼ lb. 65c; lb. \$2.45, postpaid.

Silverskin

A leading white, flat Onion. The bulbs attain a good size, ripen evenly, and the color is a beautiful silvery white when cured. Its shape is flat but symmetrical. For a white variety it is not only early, but also a good keeper. For slicing and boiling it is one of the best, the flesh being mild and tender. It is largely grown for pickling, being sown three or four times as thick as usual, and is also extensively sown for sets. For the family garden it is one of the best.

Pkt. 10c; oz. 25c; ¼ lb. 80c; lb. \$3.00.

We make a specialty of **HIGH GRADE ONION SEED**. It is better to plant no Onions at all than to sow seed of poor quality. Our seed is grown from the finest selected bulbs and is of strong vitality. Our packets of Onions contain sufficient seed to sow about 50 feet of drill.

Plant a garden and help reduce the high cost of living.

ONION SETS

The planting of Onion Sets is increasing rapidly year after year. By planting sets you can have onions ready for use several weeks earlier than can be had from seed. Write for special prices if wanted in large quantities.

Red Bottom Sets

These are planted to produce both early green and late eating onions.

Pt. 20c; qt. 35c, postpaid.

Yellow Bottom Sets

Produced from seed which makes the finest yellow sets. Fine and dry medium in size and unsprouted.

Pt. 20c; qt. 35c, postpaid.

White Bottom Sets

These are small, solid and of a beautiful white color. A favorite variety in private and market gardens.

Pt. 25c; qt. 40c, postpaid.

ONION SETS

There is a great difference in seeds. It costs us more to grow seeds than what we could buy them for elsewhere, but we know the seeds we sell are good when grown here. Good seeds cost a little more, but they are also worth much more when the resulting crop is compared.

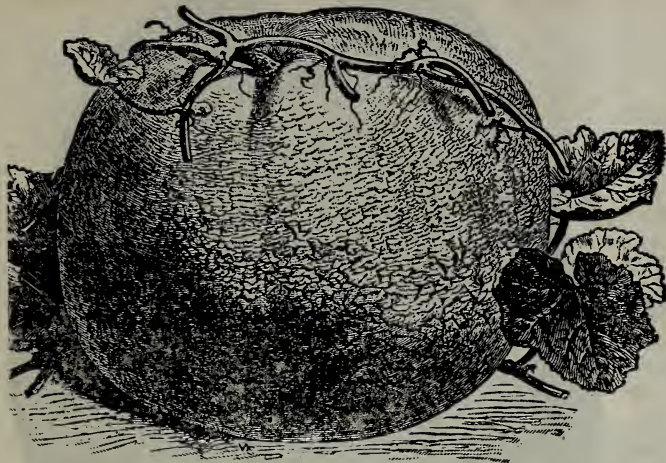

PUMPKINS

Luxury Pie

This is the very best Pumpkin that has ever come to our attention. It is enormously productive, medium in size, being about ten inches in diameter, almost globe shaped and ripens early. The skin is finely netted and in color a beautiful golden-russet, which is a sign of finest quality. The flesh is very thick, sweet and sugary; tender and of fine flavor and deep golden in color. An excellent keeper for winter use.

If you want some delicious pies for Thanksgiving day, plant **LUXURY PIE**. Pkt. 5c; oz. 15c; ¼ lb. 35c.

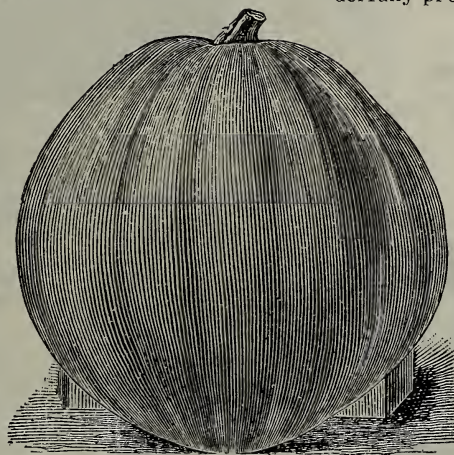

TRUE MAMMOTH

True Mammoth

The largest Pumpkin in cultivation.

This is a true Mammoth Pumpkin. Fruits grow to enormous size; specimens have been grown weighing 100 pounds and over. The skin is a light yellow russet color; flesh very thick; bright yellow, fine grained, sweet and tender and of excellent quality for pies. If you wish to see just how large a pumpkin you can raise try this variety.

Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 40c; lb. \$1.30.

QUAKER PIE

Quaker Pie

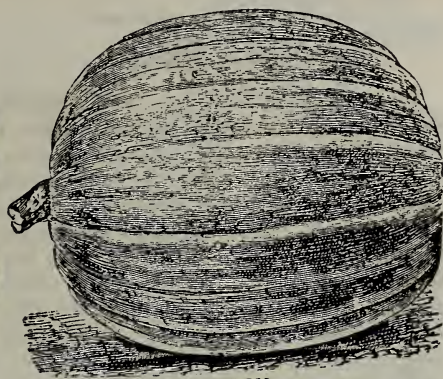

A most prolific variety. The fruits are broad, pear-shaped or slightly oval in form. The flesh is very thick and fine grained, of a beautiful golden yellow color; in texture and flavor peculiarly adapted for pie making purposes. It is very prolific and keeps well for winter use. It is sweet and delicate in flavor. Skin is a rich cream buff, which gives it a handsome appearance. Pkt. 5c, oz. 15c; $\frac{1}{4}$ lb. 40c; lb. 90c.

Early Neapolitan Pepper

THE EARLIEST, SWEET, LARGE RED PEPPER

Immensely productive and so extremely early, this grand new Pepper is of exceptional value to market gardeners. The plants are open-branched, spreading growth, two and one-half feet in height. Fruits average four and a half inches in length by two to two and a half inches in breadth at the stem end, retaining the thickness to a good portion of the length. After reaching full size the green fruits change to rich scarlet and have quite thick flesh of a very mild, sweet flavor. Single plants will grow from 35 to 50 Peppers of marketable size and at one time. Pkt. 10c; $\frac{1}{2}$ oz. 25c; oz. 50c.

"We are always glad to see your nice seed book come. You always send such nice seeds and they all grow. The garden peas I got from you are just fine."—Mrs. F. M. McLaughlin, Hayes, N. D.

BIG TOM

Big Tom Field Pumpkin

Also known as Connecticut Field. Vines are of strong vigorous growth and wonderfully productive. Fruits will average 15 to 20 inches in diameter; round or oval in form. The skin is smooth and hard, of a reddish orange color, slightly ribbed, with thick rich orange yellow flesh.

It is the hardiest of all pumpkins and is good for pies. This variety is extensively grown for stock feeding and is generally planted in with the corn.

Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 30c; lb. 90c.

You will make no mistake by planting JUNG'S QUALITY SEEDS.

EARLY NEAPOLITAN

PEPPER—Continued

Sweet Upright

The best Pepper for the family garden and unequalled for market. It produces fine, large fruits of nearly square or blocky form, with exceptionally thick flesh of the mildest and sweetest flavor. The plants are of sturdy, erect growth; fruits are borne stiffly erect and form at each of the branches; they are very broad, divided into four lobes, and when fully ripe are deeply indented at the blossom end. The color when ripe is a rich, glowing scarlet, both in the thin, tender skin and in the unusually thick flesh. The flesh is as crisp and sweet as an apple. It ripens early; the fruits are large, weighing from six to seven ounces each.

Pkt. 10c; 1-2 oz. 25c; oz. 50c; 1-4 lb. \$2.00.

Golden Queen

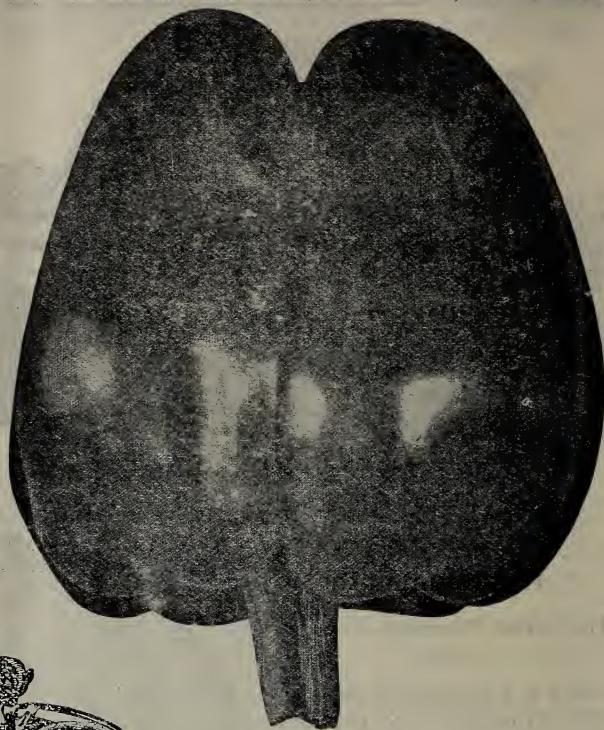

Golden Queen is the Best of all Yellow Peppers

It is always large and sometimes remarkably so, specimens reaching six to ten inches in length and four to five inches in diameter are not uncommon. A single plant sometimes carries **Twenty Large Peppers at the Same Time.**

The flavor is mild and pleasant and it may be eaten raw. It always commands the highest price on account of its large size and fine appearance. It is unexcelled for stuffing.

Pkt. 10c; oz. 45c.

Jung's packets are liberally filled.

SWEET UPRIGHT

Chinese Giant

The finest, largest and handsomest Pepper of them all. Chinese Giant is certainly a wonder

Not only is it immensely productive for so large a Pepper, but its enormous size and magnificent appearance make it sell most readily. It produces monstrous Peppers of thick, blocky form which are of the most brilliant scarlet. They grow 4 to 5 inches broad at the top and are of equal length, divided into four or more ridges; when ripe they are indented at the blossom end. The flesh is thick, very mild and is entirely free from any other fiery flavor. They can be sliced and eaten like tomatoes. Pkt. 10c; 1-2 oz. 35c; oz. 60c.

CHINESE GIANT

GOLDEN QUEEN

Increase the food supply—plant JUNG'S QUALITY SEEDS.

PARSNIP

Improved Half Long

This variety is an improvement on the old Hollow Crown, forming roots shorter and thicker than that variety, and is also more easily gathered. The flesh is white, of fine texture, free from core and stringiness and of the finest flavor when cooked. This parsnip is one of the heaviest croppers and we recommend it both for garden and field culture. Its quality is improved by freezing. Pkt. 5c; oz. 15c; 1-4 lb. 25c; lb. 85c.

Jung's Private Stock Parsnip

This is a highly improved type of the Half-Long, producing uniformly large and handsome roots of stocky form, heavy at the shoulder, well rounded, gradually tapering to the base, so that they are easily dug, and if grown in properly pulverized soil the roots will be smooth and free from side roots and wrinkles. The flesh is white, of fine texture, free from core and stringless, and especially fine flavored, cooking tender, sweet and rich. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 30c; lb. \$1.00.

CHOICE GARDEN PEAS

Our PEAS are northern grown and free from bugs. They are the earliest, hardiest and most productive. They were grown from the finest selected stock, are bright, handsome, of perfect growth, were critically rogued and carefully hand picked. The pea crop never was as small as this year and we advise our friends and customers to send their orders early so they may be filled before our stocks are exhausted.

HARBINGER

Harbinger

An extra early dwarf Pea of English origin which rarely grows over ten inches high and is immensely productive. It is quite distinct from all other varieties in habit of growth and appearance, the vines being unusually robust and stocky. The vines are literally covered with pods which are well filled with peas of delicious quality. The even, regular habit of the plants is a great advantage, particularly to market growers. Pkt. 10c; $\frac{1}{2}$ pt. 25c; pt. 40c; qt. 80c.

EARLY EXCELSIOR

Early Excelsior

The leader of the early dwarf wrinkled Peas. It grows to a height of about twelve inches; of compact growth, being similar to Nott's Excelsior in this respect, but superior to it in the following particulars:

First. The vines are more dense and sturdy. Second. The peas and pods are decidedly larger, measuring from $3\frac{1}{2}$ to 4 inches in length, and contain from 6 to 8 large peas of delicious quality, and is a much surer cropper. It is also very early; the past three seasons it was ready for use in 45 days after sowing.

One of the most valuable EARLY PEAS, surpassing in earliness, yield and quality. Pkt. 10c; $\frac{1}{2}$ pt. 25c; pt. 40c; qt. 80c.

Little Gem

One of the most popular extra early dwarf varieties. (See cut below.)

The demand for "Little Gem" increases every year which is one of the best reasons that it gives satisfaction. The vines grow 14 to 16 inches tall, require no brush and are literally covered with pods. The pods are medium in size and contain 6 to 8 peas of the most delicious quality. Crop of Little Gem is a failure this year, but you will not be disappointed if you plant our "GEMS."

Pkt. 10c; $\frac{1}{2}$ pt. 25c; pt. 40c; qt. 75c, postpaid.

THREE FINE MAIN CROP PEAS.

British Wonder

The Sweetest Flavored Pea in Cultivation.

Even sweeter in flavor than either Gradus or Thomas Laxton. The growth is similar to Carter's Daisy, except that the foliage is a darker green and the pods are not as sharply pointed. It is, however, much more reliable, and it is a **SURER CROPPER**.

The vines are very stocky, 18 to 24 inches high, and are well supplied with dark green foliage. Pods are produced in the greatest profusion, measuring about four inches in length, and contain from 8 to 10 large dark green peas each, which are of a most luscious flavor. It matures a little earlier than Dwarf Telephone and is most highly recommended.

Pkt. 10c; 1-2 pt. 25c; pt. 40c; qt. 75c, postpaid.

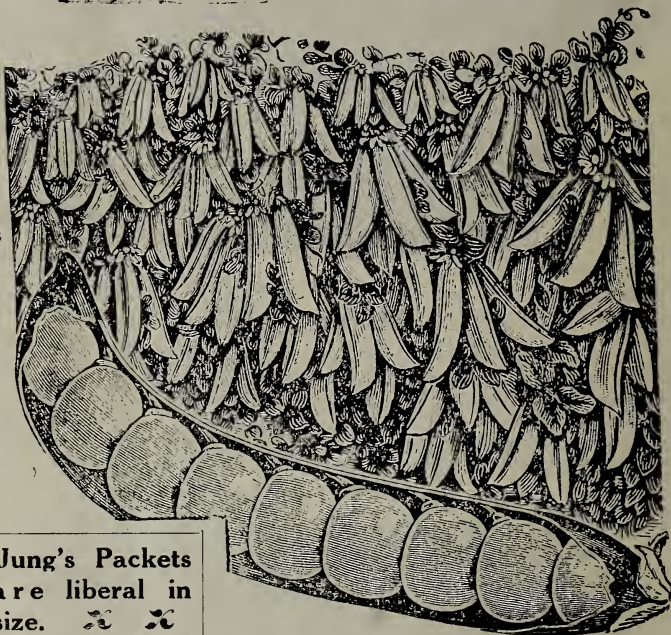

BRITISH WONDER

Improved Senator Pea

Big Yields. Sure Cropper. Fine Quality

A splendid second-early variety which does well during hot weather and still retains its excellent quality. It is of the same season as McLean's Advancer, but the pods are much larger and the vines produce more pods. Vines grow about two feet high, are very healthy and vigorous and produce a large crop of pods. The pods are of large size and contain from 7 to 10 peas which are sweet and tender, even when large.

Pkt. 10c; 1-2 pt. 25c; pt. 40c; qt. 65c, postpaid.

Jung's Packets
are liberal in
size.  

IMPROVED SENATOR

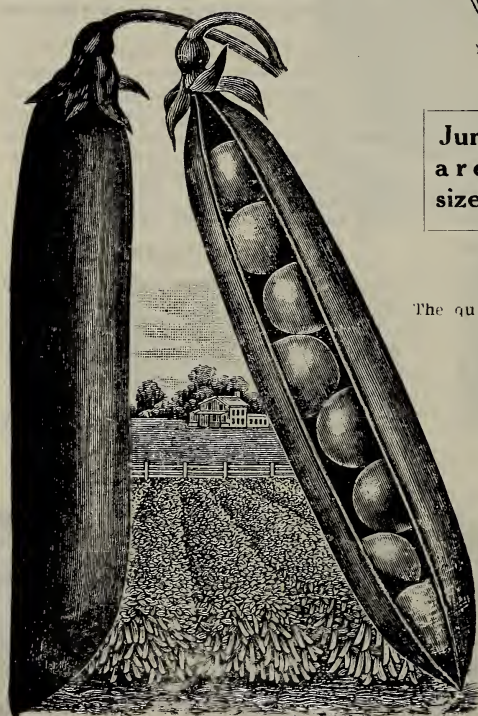

Dwarf Champion

The quality and productiveness of the old Champion of England is well known among all the gardeners, but the one great fault was the long vines. In this variety you have the large pods, superb quality and immense productiveness of the old variety, but a stocky vine that does not require brush. The vines grow only about 18 inches tall and are very healthy, never failing to yield a heavy crop of giant-sized pods. Pkt. 10c; ½ pt. 25c; pt. 40c; qt. 75c, postpaid.

Edible Podded Pea

Mammoth Luscious Sugar.

This variety is far superior to all others of the edible class of garden peas, not only in size of pod, but also in delicious quality. The large pods are sweet, brittle and tender, and have none of the tough lining found in so many of the ordinary kinds. The pods are used the same as snap or string beans and will also make excellent pickles. The vines grow about four feet tall and are very productive. Full grown pods measure five inches long and are so tender and brittle that they snap like glass: they have no strings. The sweetness and tenderness of this edible-podded pea is unsurpassed. Pkt. 10c; ½ pt. 25c; pt. 40c; qt. 70c

DWARF CHAMPION

...VARIETIES OF SPECIAL MERIT...

JUNG'S STRINGLESS BLACK WAX

On the following eight pages we are offering a list of select varieties which have been carefully tested and proved to be all we claim for them. You will make no mistake to include some in your order.

Jung's Stringless Black Wax Butter Bean

Absolutely stringless at all stages. The merits of the old Rust Proof Bean are well known. This variety combines all the good qualities of the old variety and in addition the pods are entirely stringless. The strong plants bear an enormous crop of pods which are from 6 to 7 inches long and of a beautiful golden color. Pods are flat, very fleshy, tender and of finest quality. A splendid variety for both home and market gardens.

Pkt. 10c.; $\frac{1}{2}$ pt. 25c.; pt. 40c.; qt. 75c.

Stringless Green-Pod Bush Bean

This variety combines the following essential points: Extreme earliness, being the first to produce pods; unusual hardiness and great productiveness. The pods are from 5 to 6 inches long, very round, of a rich green color and entirely stringless, even when matured. They are tender, brittle and of the finest flavor. It is without exception the finest green podded bean in cultivation.

Pkt. 10c.; 1-2 pt. 20c.; pt. 35c.; qt. 65c.

STRINGLESS GREEN POD

Prolific Green Podded Pole Bean

The best green podded Pole Bean in cultivation. It is earlier than most other varieties and covers a longer season of productiveness. The vines are vigorous growers, being loaded with pods from summer until frost. It is a very sure cropper, even in unfavorable seasons producing large crops. The pods, borne in clusters, average six to eight inches in length, are uniformly straight, of a dark rich green color, and so meaty as to be nearly saddle-backed. The pods are entirely stringless, very tender and sweet and of a mild flavor. The dry beans are of a pearly whiteness. Pkt. 10c.; 1-2 pt. 25c.; pt. 40c.; qt. 75c.

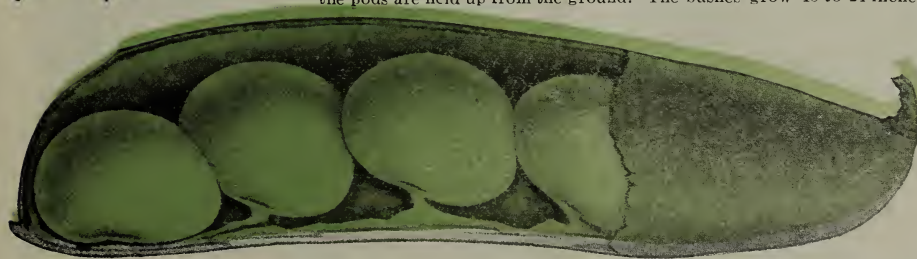

Wonder Bush Lima Bean. THE VERY BEST BUSH LIMA BEAN

A great improvement on Burpee's Bush Lima, as it is both earlier and more productive, the pods are borne more to the center of the plant. This is a great advantage, as the pods are held up from the ground. The bushes grow 18 to 24 inches tall and require no stalks or poles.

Pods are truly mammoth in size and are borne in clusters of from 5 to 8 pods and contain from 4 to 6 of the large luscious beans. There is nothing quite so delicious in the vegetable line as nice fresh Lima Beans.

Pkt. 10c.; $\frac{1}{2}$ pt. 25c.; pt. 40c.; qt. 75c.

WONDER BUSH LIMA

Vegetables of Special Merit

BEET—Detroit Dark Red

SPECIAL SELECT STOCK

A very fine turnip beet, with dark red skin and bright red flesh. It grows very smooth, is globular in shape. (See illustration.) The quality is the very best, sweet and tender. An ideal table variety and also desirable for market gardens, as it is fine for bunching and its small, upright growing tops allow close planting. Pkt. 5c.; oz. 15c.; 1-lb. 40c.

DETROIT DARK RED

Cauliflower—Early Snowball

For earliness and reliability to produce a head of good size and rich, white, curly appearance, it is unequalled. It forms snow white heads, six to ten inches in diameter, of good quality. While originally recommended and used as an early variety, it has not only supplanted all other sorts for spring planting, but it has largely driven out the large late crops for fall use, being much finer in quality and the one cauliflower that is absolutely certain to head when conditions are ordinarily favorable. The heads are so solid, compact and deep, they will out-weigh those of any other strain. There is a great difference in the strain of this variety offered, but our stock is the very best. Pkt. 15c.; 1-4 oz. 75c.; 1-2 oz. \$1.25; oz. \$2.25.

EARLY SNOWBALL

Carrot—Jung's Early Market

A handsome half-long variety, the shape of which is well shown in the illustration. They average six inches in length by one and one-half inches in diameter and are ready for use quite early. The skin is very smooth and clean and of a rich orange color. The flesh is of fine texture, free from all stringiness, while the core is very small, having no pithy or woody fiber.

Pkt. 5c.; oz. 15c.; 1-4 lb. 50c.; lb. \$1.65.

SWEET CORN—Jung's Early Fortune

We sent out this variety for trial the last two years and it has given the best of satisfaction. This variety originally came from Canada and at our Fairfield Farm trials it was the earliest of all. There is no product of the garden so eagerly waited for as the first sweet corn of the season. Early Fortune is the real tender, juicy sweet corn, ready for use before the summer has really commenced. Not only is it early, but it is also sweet and delicate in flavor, being excelled in this respect by no other corn except Golden Bantam. On account of its extreme earliness, Early Fortune is especially adapted for planting in northern latitudes and in high altitudes where other varieties fail entirely. The stalks do not grow very large but have two and often three unusually large ears. Ears are about seven inches long and well filled with sweet and tender grains.

Pkt. 10c.; 1-2 pt. 20c.; pt. 35c.; qt. 65c.—postpaid.

JUNG'S EARLY MARKET

JUNG'S EARLY FORTUNE

Vegetables of Special Merit

COPENHAGEN MARKET

Danish Ballhead

A Grand Hard-Headed Cabbage

This type of winter cabbage has become very popular of late years on account of its UNEQUALED KEEPING QUALITIES as well as for the great solidity and weight of the heads. It is strong and vigorous in growth and produces large, round, compact heads, exceedingly hard and solid, weighing, when trimmed, fully one-fourth more than any other cabbage of equal size. For boiling, slaw, sauerkraut, etc., it is unequalled, being crisp, tender and sweet. It seems to grow well on all soils and under most conditions, withstanding hot, dry weather, and does not rot from the effects of wet seasons, neither do the heads burst.

Danish grown seed per pkt. 10c; oz. 50c; 1-4 lb. \$1.35.

DANISH BALLHEAD

CABBAGE—Copenhagen Market

An extremely early cabbage of unusual merit. It matures as early as Wakefield and will give a much heavier yield per acre than that popular variety. The plant is a short-stemmed, the heads being produced on the ground level. The leaves are dark green, rather small, saucer-shaped and always tightly folded.

The splendid solid heads weigh as much as eight pounds each, are of exceptional flavor and show no signs of cracking. The type is thoroughly fixed, the heads all maturing at the same time. This cabbage has come to stay and will give satisfaction.

Pkt. 10c; oz. 60c; 1-4 lb. \$1.85.

The greatest seed bargains of this year are offered on inside back cover. Include them in your order.

Extra Early Express

POSITIVELY THE EARLIEST CABBAGE ON EARTH

It produces heads of good size a week to ten days earlier than Jersey Wakefield. There are few loose leaves and it forms a head of good size and fine quality. It can be planted close, always yields a large crop. A fine variety for shipping, as the heads remain solid for a long time. It is a beautiful appearing cabbage, being of fine color and general uniformity. Also called "Lightning" and other fancy names by some seedsmen.

Pkt. 10c; oz. 35c; 1-4 lb. \$1.25

CHINESE CELERY CABBAGE

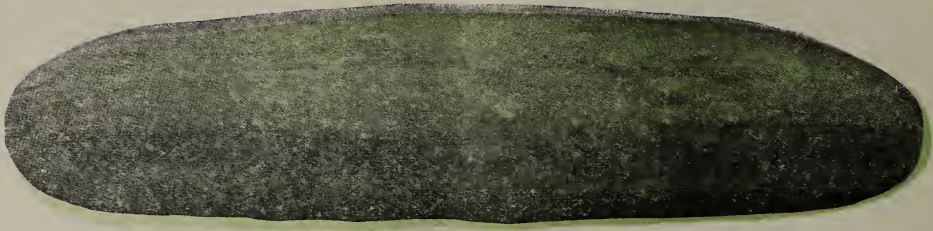

EXTRA
EARLY
EXPRESS
CABBAGE

Chinese or Celery Cabbage

Until recently this new vegetable was unknown, but as its good qualities became known it is rapidly gaining popular favor. For best results the seed should be sown the latter part of July in rows 2 feet apart and thinned to stand 15 inches apart in the rows, then a most excellent vegetable can be grown. Develops quickly, and as the weather gets colder it heads up nicely, producing crisp, celery-like stalks, beautifully blanched. It can be eaten raw, made into salads or cooked as cabbage or greens. Pkt. 10c; oz. 40c.

Vegetables of Special Merit

=:o:= FOUR GREAT CUCUMBERS =:o:=

JUNG'S FAIRFIELD GIANT

Chicago Pickling Cucumber

The most popular and widely grown pickling variety. The fact that it is used by most of the large pickling factories is the best proof of its leadership in its class. The vines are very vigorous growers and will produce a large number of fruits if kept gathered before they become too large. Skin is extremely thin, tender and free from toughness when pickled. Quality excellent.

Pkt. 5c; oz. 15c; 1-4 lb. 35c.

CHICAGO
PICKLING

Jung's Fairfield Giant Cucumber

The darkest green and most nearly seedless cucumber in cultivation.

The vines are unusually vigorous in growth and produce an enormous crop of handsome fruits. They are quite smooth, of a deep green color and grow from 12 to 18 inches long, being one of the handsomest cucumbers grown. When the fruits are from six to eight in length, or just the right size for slicing, they are practically solid, there being hardly a trace of seed to be found. The pure white flesh is very firm, sweet and crisp, and of the finest flavor. As shown in the illustration, the fruits are very long and slim, which, together with their deep green color, will make them bring the top prices on all markets.

Pkt. 10c; oz. 20c; 1-4 lb. 60c.

SPECIAL OFFER:

1 pkt. of each of these
4 fine Cucumbers for only
20c.

DAVIS PERFECT.

DAVIS PERFECT

A cucumber which for shape, quality, color and forcing indoors, or growing outside, is unexcelled. The type is perfectly fixed and has an ideal shape, being slim and symmetrical. The eating qualities surpass all other varieties. The seeds that are contained in it when it is in slicing condition, are so small and tender that they are unnoticed. The vines are very strong and rampant growers, in fact it resembles the hot-house product so closely that dealers cannot detect the difference. The most nearly perfect CUCUMBER yet introduced.

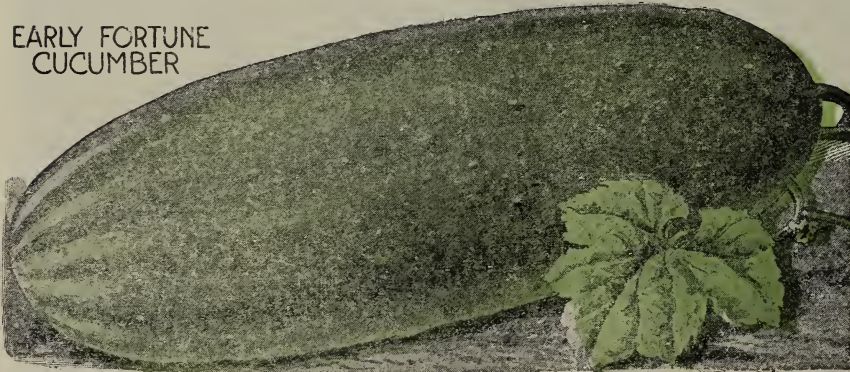

Pkt. 10c; oz. 15c; 1-4 lb. 35c.

EARLY FORTUNE

This variety is exceedingly productive and is distinguished by its vigorous growth and large healthy leaves, making it less susceptible to disease than other varieties. The fruits are very uniform in size and shape and rich dark green in color; this color does not fade when shipped a long distance. As a pickling variety, EARLY FORTUNE IS ONE OF THE BEST VARIETIES, as the fruits are so uniform.

Pkt. 5c; oz. 15c; 1-4 lb. 35c.

EARLIEST WAYAHEAD LETTUCE

EARLIEST WAYAHEAD

Earliest Wayahead Lettuce

This is the quickest growing and most attractive extremely early Lettuce, producing handsome, solid heads fully one week earlier than Black Seeded Tennis Ball. Its earliness makes it the ideal variety for market gardeners, as the early heads always bring the best price. Its quality is unsurpassed, the heads are very solid and have weighed six ounces when trimmed. The interior of the heads is blanched to a beautiful creamy color, while the leaves are tender, juicy and sweet-flavored.

The quality of this variety is unequalled among the early sorts.

Pkt. 10c; oz. 20c; 1-4 lb. 45c—postpaid.

A booklet on making gardens sent FREE with every order.

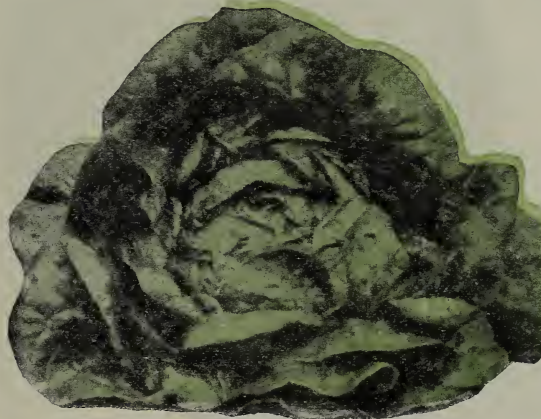

California Cream Butter Lettuce

A GRAND CABBAGE
LETTUCE

A grand, good butter lettuce for summer use. The outside leaves are medium green, while those within are of a rich cream yellow.

Rich and buttery in taste. It produces large solid heads, even in hot weather. Easy to grow and a good shipping variety. This is one of the finest and best sorts ever offered.

Pkt. 5c; oz. 15c; 1-4 lb. 35c.

CALIFORNIA CREAM BUTTER

French Breakfast Radish

An early medium sized radish, olive shaped, very crisp and tender, of a beautiful bright scarlet color, tipped with white. It grows about 2 inches long and is decidedly stump rooted. A splendid variety for the table, for its excellent quality and beautiful color are unexcelled. It is a quick growing and exceedingly popular variety. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 35c; lb. \$1.25.

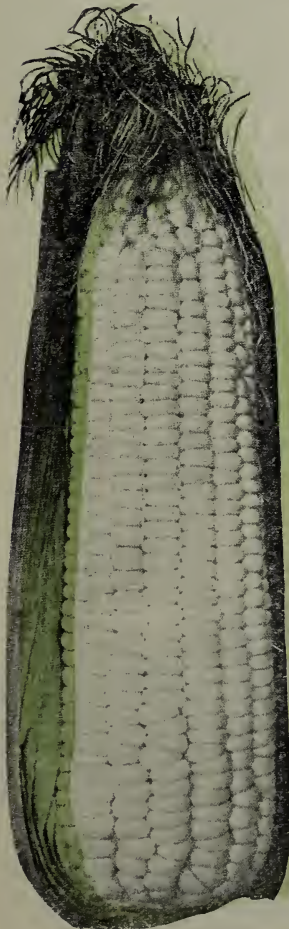

FRENCH BREAKFAST

Howling Mob Sweet Corn

The largest eared, sweetest flavored early variety in cultivation

This variety is of exceptional hardness and productiveness. It produces ears of large size, combined with an unusual sweet flavor for so early a corn. The stalks are strong and vigorous, four to four and one-half feet high. The ears are seven to nine inches in length, with 14 or more rows of medium sized pearly white grains. The grains are sweet and rich in flavor. The ears are protected by a heavy husk which extends beyond the tip of the ear and forms a safe-guard against the destructive green worms. Pkt. 5c; $\frac{1}{2}$ pt. 20c; pt. 35c; qt. 60c.

HOWLING MOB

❖ ❖ THE PRODUCTS OF JUNG'S SEEDS ARE UNEXCELLED ❖ ❖

Vegetables of Special Merit

Henderson's Bush

Musk Melon

The melon for small gardens.

Requires little space. Ripens early.

The fruits are of the popular "Jenny Lind" type, but larger, averaging five inches in diameter; vines are vigorous and healthy, resisting heat and drought better than most other varieties. The flesh is very deep, edible almost to the rind and is light green flushed with salmon towards the center; the seed cavity is very small.

The quality is superb, lusciously sweet and juicy, of most gratifying flavor and delightful aroma. Its vineless character of growth or "bush habit" is a distinct advantage as it saves space thus permitting it to begrown even in small gardens. The plants are stocky and vigorous, growing from fifteen to eighteen inches in length, and three or four plants to a hill form a mound three feet in diameter, and will produce many delicious melons.

Pkt. 10c.; oz. 35c.

HENDERSON'S BUSH MUSKMELON

Jung's Earliest Ripe Muskmelon

Positively the earliest green-fleshed muskmelon ever grown. Of medium size, weighing from 2½ to 4 pounds. The skin is green, ribbed and netted, the flesh deep and thick and light green in color, inclining to yellow toward the center. In flavor it is exceedingly fine. A heavy cropper and absolutely the earliest of all muskmelons. We recommend it particularly to all whose profit depends upon being first in market, and their uniform size and shape, combined with their delicious flavor, sell rapidly at high prices. If you want a firm, solid melon, and the first on the market, plant JUNG'S EARLIEST RIPE.

Pkt. 10c; oz. 20c; ¼ lb. 40c.

JUNG'S EARLIEST RIPE

Baby Delight

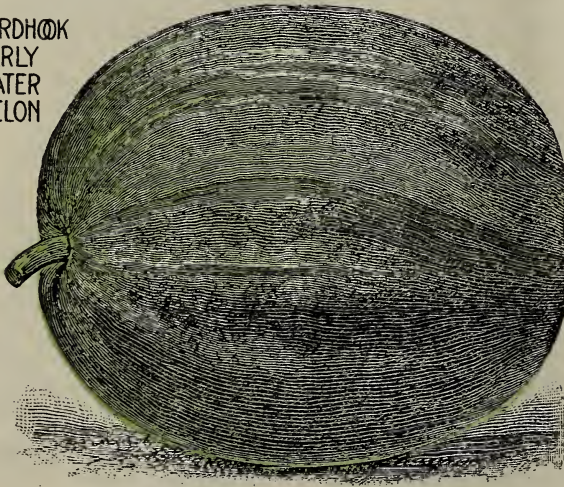

CLIMBING WATERMELON

A real climbing Watermelon of luscious sweetness. Toe ripe melon weighs from three to six pounds each. The rich carmine flesh is always solid and of exceptionally sweet flavor. They have small apple-like gray seeds which separate easily from the flesh. The long vines are of vigorous growth, the heavy foliage nearly concealing the fruit.

The first melons mature early, but the strong vines continue to produce the attractive little melons in great abundance all season. This melon will become popular alike for the family table and for restaurants, both on account of its fine flavor and convenient size. There are absolutely no mishappen melons on the vines, all running uniform and marketable. (See illustration at bottom of page.)

Pkt 10c; 3 pkts. 20c; oz. 30c; 1-4 lb. \$1.00; postpaid.

FORDHOOK EARLY WATER MELON

Fordhook Early Watermelon

This is the only extra early watermelon we have that is of good size and quality. The fruits are of large size, rather short and blocky in form with large diameters. Flesh is bright red, crisp, sweet, and of splendid quality. The quality continues to improve after ripening. The heart is large, there is no seed cavity and very few seeds. The vines are of strong, vigorous growth, setting large melons in good numbers. Skin is dark green, occasionally with faint stripes of light green. Pkt. 5c; oz. 15c; 1-4 lb. 30c.

BABy DELIGHT

Vegetables of Special Merit

Halbert Honey Watermelon

The very finest melon in cultivation for home use or nearby markets.

A melon that has no equal in beauty, quality and productiveness. The melons are smooth and regular in outline, 14 to 18 inches long and 6 to 8 inches in diameter. Color of the rind is a clear, glossy deep green. The flesh is a beautiful crimson, extending to within less than half an inch of the rind, which is so tender that it will not stand shipping a long distance unless carefully handled. The first melons ripen early and the vines continue to develop fine fruit throughout the season. The sweet flesh melts away in your mouth like honey.

Pkt. 5c; oz. 15c; 1-4 lb. 35c.

HALBERT HONEY

NEW DELICIOUS

New Delicious Squash

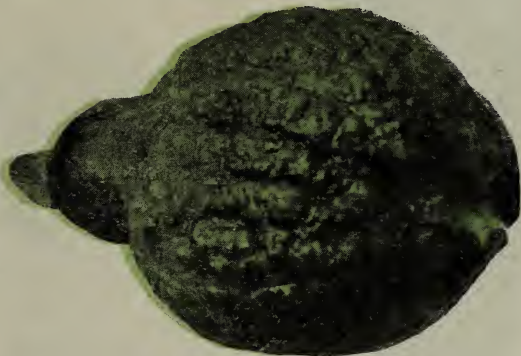

This is one of the best flavored squashes in existence. In thickness of flesh it surpasses nearly every other variety. The color is a dark orange. For table use no other kind compares with it in compactness of flesh, dryness, sweetness and exceeding richness of flavor. It is a fall and winter squash. The fruits vary in form and color, but are uniformly delicious in flavor.

Pkt. 5c; oz. 20c; 1-4 lb. 50c—postpaid.

Improved Hubbard Squash

This is the old standard Squash, now grown throughout the country. Flesh is deep golden yellow and fine grained, and whether boiled, steamed or baked, it is always richly flavored, sweet and dry. The vines are strong, of luxuriant growth and very productive, yielding large, heavy squashes, weighing from 10 to 25 pounds each. The color of the rind varies somewhat, but the color and quality of the flesh is fixed and unchangeable—always a deep golden yellow or orange. If properly stored it will keep until spring.

Pkt. 5c; oz. 20c; 1-4 lb. 50c; lb. \$1.60.

IMPROVED HUBBARD

We were well pleased with the garden seeds last year; we had the finest tomatoes in the whole neighborhood.

—Mrs. Hans Erickson, Brainerd, Minn.

GARDENER'S DELIGHT TOMATO

Gardener's Delight Tomato

The most prolific and finest flavored tomato; commences to ripen early and continues to bear until frost. Fruits average 2½ inches in diameter and grow in clusters, frequently 12 on a single stem. Color is a bright red; fruit is always smooth, very solid and of the finest flavor. It is so productive that a dozen plants will produce enough fruit for an ordinary family. We offer choicest seed of our own growing.

Pkt. 10c; 1-2 oz. 35c; oz. 60c

Vegetables of Special Merit

We were very well pleased with results obtained from your seed last year, so re-new orders. This is the third this spring.

—Jennie Camidge,
Columbus, Wis.

Three Splendid Peas

Nott's Excelsior

The sweetest and most prolific of all Early Dwarf Peas. A very fine variety of dwarf, compact growth, with pods three inches in length, which are well filled to the squared ends with large peas of unusually sweet flavor. It is of vigorous growth and wonderfully productive. It grows from 12 to 14 inches high. In favorable weather and soil it will mature in the remarkable short period of 45 days. The best sort for the home or market garden. Pkt. 10c; $\frac{1}{2}$ pt. 25c; pt. 40c; qt. 80c.

Lord Leicester

THE GIANT OF THE PEA FAMILY

This is one of the largest podded varieties in cultivation and also a sure cropper. We have grown it for six years and it has never failed to produce a good crop. The plant is of branching habit, growing about five feet in height, with dark green foliage. It is of very vigorous and robust constitution, which enables it to withstand drought and mildew. The pods are produced in great profusion, mostly in pairs, some measuring 6 inches in length and contain 9 to 12 peas. You will be delighted to show your friends such enormous pods of peas, which in addition to large size, combine rich and succulent flavor, not surpassed by any other variety. For quality it is superb, the peas fairly melt in your mouth.

Pkt. 10c; $\frac{1}{2}$ pt. 25c; pt. 40c; qt. 80c.

Jung's Aristocrat

This grand pea produces pods of good size and is such a good cropper that it should be planted in every garden. The vines are of a rich green color, very stocky in growth, from 16 to 18 inches tall, and do not require brushing. The pods are borne in great profusion and mostly in pairs and are closely packed with peas, which are sweet, tender, and of exquisite flavor. They remain fit for use a long time and retain their dark green color when served. Pkt. 10c; $\frac{1}{2}$ pt. 25c. pt. 40c; qt. 75c.

ARISTOCRAT

LORD LEICESTER

SPECIAL OFFER:

1 pkt. each of the above peas for 20c
1-2 pt. each of the above peas for 65c
1 pt. each of the above peas for \$1.10

Spinach Victoria

One package of Spinach will sow about 50 feet of rows. This is a handsome variety with exceedingly dark green color and has very long standing qualities. The foliage is heavy, the wide dark leaves being of a true savoy appearance and of the finest quality. It remains in prime condition for 2 or 3 weeks.

Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 30c; lb. \$1.25, postpaid.

SPINACH VICTORIA

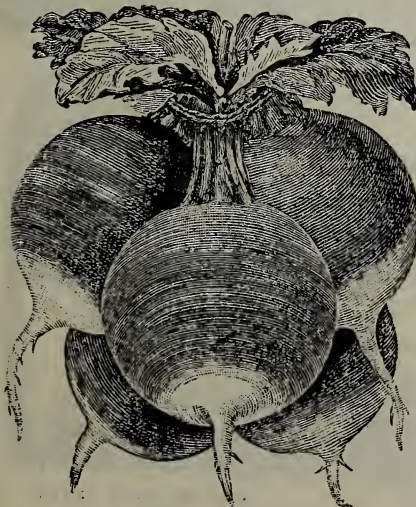

DWARF TELEPHONE

Rosy Gem

One of the most popular and attractive short varieties ever grown. Ready for the table in from 17 to 25 days after sowing. It is a rich, deep scarlet at the top, beautifully blended into pure white at the bottom. Exceedingly tender and crisp; flavor very mild and delicious. A gem in earliness, beauty and quality. Its smooth skin and fine color give it an appetizing appearance when served.

Pkt. 5c; oz. 15c; ¼ lb. 35c; lb. \$1.25.

PERFECTION

ROSY GEM RADISH

the seed, fit for the table. However, its earliness is not its only good feature, as it is also of elegant shape, finest quality and a rich red color. Taken in all it cannot be excelled for both the garden and forcing under glass. Its attractive color and small tops make it especially desirable for forcing. The flesh is pure white, very crisp and tender. If you want to be the first on the market with Radishes that will command fancy prices, then plant "JUNG'S RAPID RED."

Pkt. 5c; oz. 15c; ¼ lb. 40c; lb. \$1.35.

Perfection

The most attractive white-tipped Radish. This variety is bound to become the most popular of the white-tipped varieties, as it combines handsome appearance, quality and extreme earliness. The white tips extend nearly half way up the root, and the brilliant color of the top shows up in strong contrast. For quality it is unexcelled, as it is very crisp, tender and sweet. One of the best varieties to grow for market as well as for the home garden.

Pkt. 5c; oz. 15c; ¼ lb. 35c.

PEAS—Continued.

Jung's Dwarf Telephone

Giant Pods. Luscious Quality. Immense Yield.

This is one of the finest dwarf green wrinkled Marrow Peas in cultivation and one that ought to be grown in every garden. A strong, luxuriant growing variety, attaining a height of about 18 inches. The pods, which grow five inches long, are packed with immense wrinkled Marrow Peas, 7 to 8 being the average, while 10 to 12 to a pod are frequently found. The quality is superb, rich, sugary and meltingly tender. As high as 18 large, handsome pods have been grown on a single plant.

Pkt. 10c; ½ pt. 25c; pt. 45c; qt. 85c, postpaid

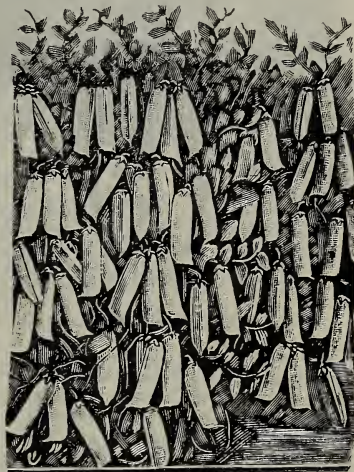

Everbearing

A fine second-early or main crop Pea which combines quality and yield and will continue bearing a long time if the pods are picked.

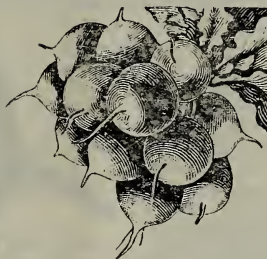

It has a remarkable branching habit, sometimes forming as many as six stalks from a single seed, which accounts for its great yields.

The pods are of good size and contain from eight to ten large peas which are of remarkably fine quality.

Pkt. 10c; ½ pt. 20c; pt. 35c; qt. 65c, postpaid.

EVERBEARING

We take much pride in our select strains of Radish seed. The bulk of it is grown in Denmark and you will find that this seed will produce Radishes with milder flavor and less leaves than the cheap California grown seed.

Jung's Rapid Red Radish

This we find to be the quickest maturing of all Radishes, having been grown in the short period of 18 days from the sowing of the seed, fit for the table. However, its earliness is not its only good feature, as it is also of elegant shape, finest quality and a rich red color. Taken in all it cannot be excelled for both the garden and forcing under glass. Its attractive color and small tops make it especially desirable for forcing. The flesh is pure white, very crisp and tender. If you want to be the first on the market with Radishes that will command fancy prices, then plant "JUNG'S RAPID RED."

RAPID, RED, RADISH

RADISH—Continued

Earliest Scarlet

A fine, bright red Radish of quick growth. It is especially fine for bunching for early market from plantings in the open ground, being ready for market in from 18 to 25 days. It is solid in character and very uniform in size and shape. The tops are very small, thereby making it the best of all for forcing under glass. The flesh is purest white, firm and crisp in texture and of mild flavor. The roots are entirely free from the hollow center or pithy fibre so often found in Radish. The shape is well shown in the illustration. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 40c; lb. \$1.35.

EARLIEST SCARLET

Crimson Giant Globe

This new variety is suitable for both forcing and growing out doors. It is a fine shaped, bright Radish, growing quickly to large size (see illustration.) The Radish is a deep globe in shape; it measures two inches in depth and $1\frac{1}{2}$ inches in diameter. Skin is thin and tender and of a deep crimson color. The flesh is pure white, crisp and of mild flavor. The roots are entirely free from hollow centers and pithy fibre. It is sure to become a leading variety.

Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 35c; lb. \$1.30.

New White Icicle

Long, slender, crisp, tender, mild and of purest white. Unexcelled as a money maker. An entirely distinct variety from Europe and derives its name from the almost transparent whiteness of the roots. It produces slender,

pure white Radishes very early in the season, much earlier and finer in quality than any other long white variety. The shape is well shown in the illustration. The leaves are short and few, making it an excellent variety for forcing. It is of the best flavor and very brittle and crisp. The roots grow about four inches long and are ready for use in about 25 days after sowing. It is a desirable variety for the home garden, and market gardeners will find it a money maker.

Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 40c; lb. \$1.25.

Wood's Early Frame

This is one of the earliest long varieties. It is of a beautiful scarlet color, shading to white towards the tip. It is always juicy, tender, delicious and free from pith and sharpness so often found in long Radishes. Very much used for growing under glass. You will be delighted with this variety.

Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 35c, postpaid.

The seeds came promptly and the large size of the packets surprised me. I have only a small garden—what is called a "back yard garden;" however, every little helps, and I'll pass your catalog around.
—F. J. Mutschler, St. Louis, Mo.

WHITE ICICLE

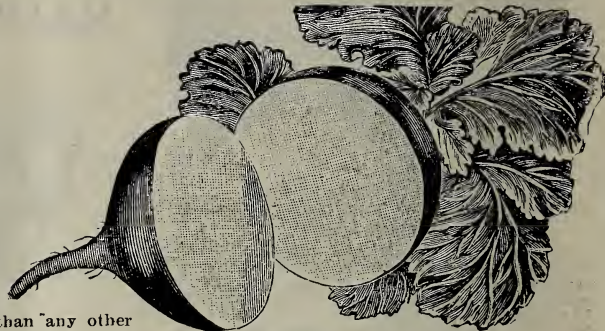

Earliest Hailstone

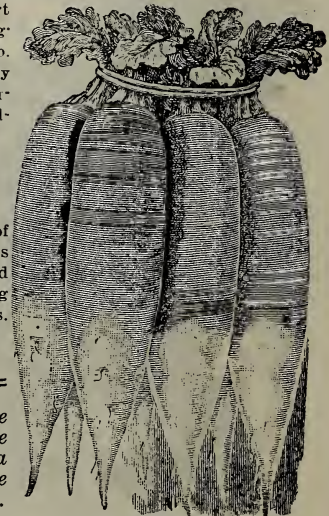

The earliest and quickest growing WHITE RADISH in cultivation.

Ready for use from 15 to 18 days after sowing. The radishes are regular shaped, measuring one inch in diameter and about half an inch in depth. Flesh is solid, crisp and of mild flavor. The foliage is unusually small, and owing to this fact, combined with extreme earliness, solidity and superb quality, cannot fail to make it the most popular first early white Turnip Radish.

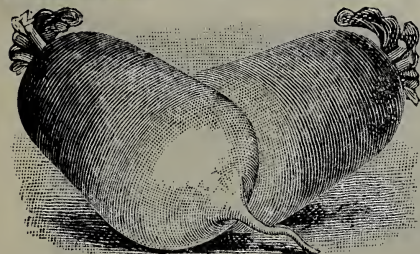

Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 35c; lb. \$1.25.

CRIMSON GIANT GLOBE

WOOD'S EARLY FRAME

CHINA ROSE WINTER

RADISHES—Continued

Early Long Scarlet Short Top.

This variety is a standard and excellent sort either for private gardens or for market. The roots grow half above ground, are very uniform in shape, smooth, very bright red in color and continue crisp and tender until fully matured, when they are about six inches long. It matures beautiful Radishes which are always brittle and sweet 25 to 30 days from the sowing of the seed.

Pkt. 5c; oz. 15c; ¼ lb. 30c; lb. \$1.00.

Winter Radish—Chinese Rose

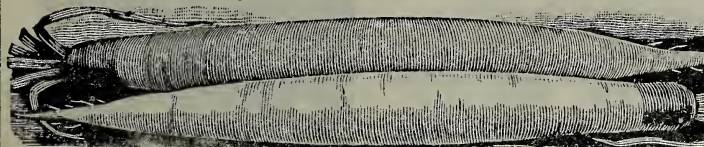

This is a large and fine shaped Radish, growing partly above the ground. It is of a half long shape with a blunt point; rose colored skin, flesh white, solid as an apple. It has not the strong flavor of the Black Spanish and keeps equally as well. Pkt. 5c; oz. 15c; ½ lb. 35c; lb. \$1.20.

Everbearing Strawberry

Everbearing Strawberries are easily grown from seed and we know you will be pleased and delighted if you try growing a few in this way. Our seed was all saved from choice plants, of the leading everbearing varieties, and by planting a packet you should get an endless variety of new kinds that will bear fruit continuously spring, summer and fall. Strawberries grown from seed don't always come exact like the parent plants, which makes it all the more interesting to grow them in this way. You may get some new varieties that will make you a fortune. All the leading varieties are seedlings and were secured in just this way. They are perfectly hardy and after the first season will produce an abundant crop of berries early in the season like common varieties of strawberries, and continue bearing without intermission until freezing weather in the late fall. Pkt. 10c; 3 for 25c, postpaid.

SALSIFY—Mammoth Sandwich Island

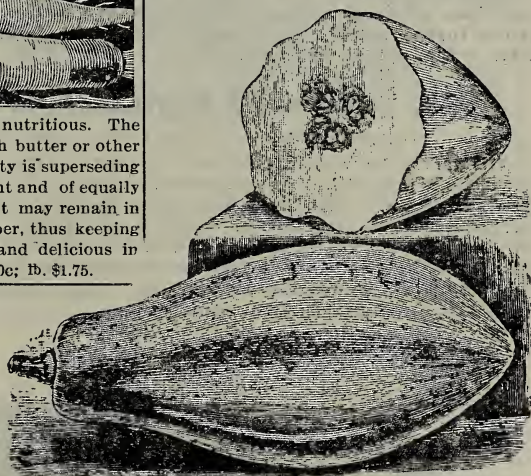

One of the most delicious vegetables and also one of the most nutritious. The flavor is very sweet and highly esteemed, whether served boiled with butter or other suitable sauces, or sliced and fried or used in soup. The new variety is superseding the old type, as it produces roots nearly double the size and weight and of equally good quality. Seed sown in spring produces large, fine roots that may remain in the ground or may be dug and stored in sand or earth in November, thus keeping plump and sweet, to be used as desired during the winter. Mild and delicious in flavor. One pkt. will sow 50 feet of rows. Pkt. 5c; oz. 20c; ¼ lb. 50c; lb. \$1.75.

SQUASH

Bush Fordhook Squash

The most desirable Squash for either summer or winter use. It is of a true bush type and can be grown much closer than the running sorts. The vines are of strong, vigorous growth and wonderfully productive. The fruits are pear-shaped, 7 to 9 inches long, slightly ridged, a smooth, thin, yellow skin. Flesh is very thick and of a light straw yellow color. For frying, baking or making pies they are unsurpassed. Stored in a dry place they will keep until the following spring. It is early and has proven to be one of the hardest and most dependable squash for all localities.

Pkt. 5c; oz. 10c; ¼ lb. 30c lb. \$1.00, postpaid.

BUSH FORDHOOK

Giant Summer Crookneck

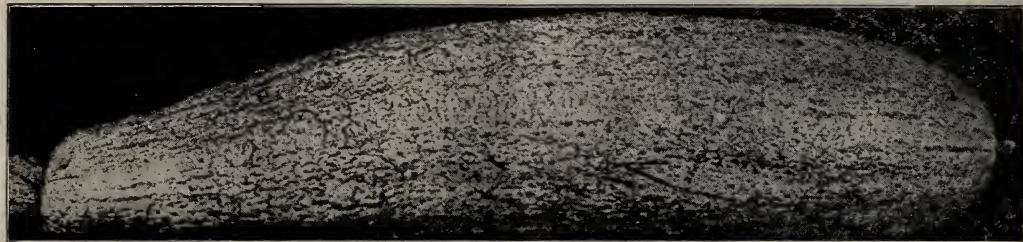

This magnificent strain is equally as early as the common small-fruited varieties. It is of a bright yellow color and from 18 inches to 2 feet long. Fruits are solid, heavy and freely produced on healthy, vigorous plants of compact bush habit. The flesh has a greenish yellow color, is dry and of the most agreeable flavor. A most profitable variety to grow for market as it grows very rapidly and is of superior quality. Pkt. 5c oz 15c ¼ lb 35c

Golden Hubbard

An elegant Winter Squash. Flesh a deep golden yellow much richer in color than Hubbard: fine grained, cooks very dry and is of excellent flavor. In keeping quality it has no superior. Its productiveness, combined with its sweet rich flavor, attractive color, and shape, are bound to make it a popular fall and winter variety. Golden Hubbard is a sport from the well known old Hubbard which it closely resembles in every respect except in color, which is a bright golden orange. Pkt. 5c; oz. 15c; ¼ lb. 35c, postpaid.

GOLDEN HUBBARD

BANANA SQUASH

Banana Squash

RIPENS LARLY, ENORMOUSLY PRODUCTIVE. FINEST QUALITY. GOOD KEEPER.

This squash is better shown in the illustration than we can describe it. It keeps equal to Hubbard, is even better quality, more prolific and earlier in ripening. The color is grayish-green, shell soft, so that it can be cut with a knife. It grows from 18 to 30 inches long and six to eight inches in diameter. It is very prolific and a shy seeder, which accounts for the high price of the seed. Flesh is of deep orange color, entirely free from fibre or stringness. Cooks up perfectly smooth and of most delicious flavor. Pkt. 10c; oz. 25c; 1-4 lb. 50c.

TOMATOES

We take special pride in our tomato seed and are sure that it is unexcelled for quality. It is northern grown and will produce a crop that will ripen earlier, produce solider fruit and healthier plants than seed grown further south. It is folly to use cheap tomato seed, for it only takes a few ounces to plant an acre.

Jung's Fairfield First

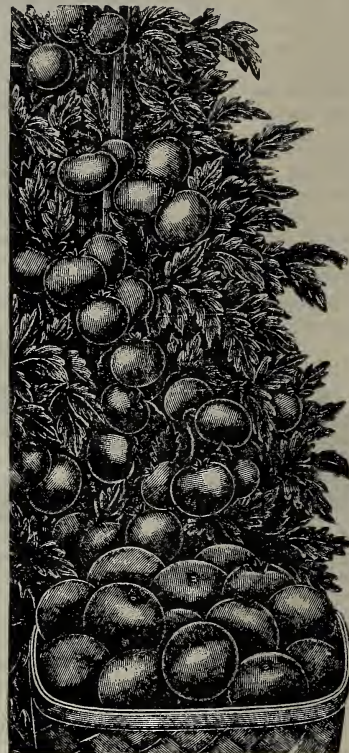

THE SMOOTHEST AND FINEST EXTRA EARLY TOMATO

This variety has been carefully bred for extreme earliness, productiveness and smoothness of fruit. Fruits are of good size, smooth and borne in clusters. It is a very heavy cropper. Although one of the first to ripen, the vines continue to bear until frost; the size and smoothness of the fruits is maintained until the end of the season. The color is an intense velvety scarlet; fruits are almost globe shaped, making it a splendid variety for slicing. The fruits are remarkably solid and firm, flesh is thick and heavy, of fine flavor and contains but few seeds. Vines are strong and healthy growers.

Pkt. 10c; oz. 40c; ¼ lb. \$1.30, postpaid.

JACK ROSE

JUNG'S FAIRFIELD FIRST

Jack Rose Tomato

Next to Fairfield First it is the EARLIEST RED TOMATO IN THE WORLD. It is from three to five days earlier than Earliana which means much additional profit when planted for market, as every trucker strives to have the earliest tomatoes. The vines are vigorous growers and are well supplied with heavy foliage, which protects the fruits from the sun. The fruits are smooth, solid and of good size, some measuring four inches in diameter. It is almost all solid meat, producing but a very small quantity of seed, and for this reason the seed will always be expensive. The later fruit on the vines is just as large and solid as the first.

If you want an abundant supply of large, solid, fine flavored, rich colored, meaty Tomatoes, do not fail to order JACK ROSE.

Pkt. 10c; oz. 40c; ¼ lb. \$1.25.

I am sending for the tomato seed in particular, the only time I ever had plenty of ripe tomatoes here. I had the Jack Rose and then I had all I could use.—Mrs. C. F. Zohman, Comstock, Wis.

J.W. JUNG SEED COMPANY

SEED GROWERS RANDOLPH, WISCONSIN

"Jung's Private Stock" == JOHN BAER TOMATO

THE EARLIEST AND BEST OF ALL TOMATOES

We are offering seed of our own growing, which for earliness, freedom from all disease, great productiveness and solidity of fruits, is unexcelled.

Here are a few reasons why you should plant this excellent variety:

1. It is the quickest to ripen.
2. It produces the smoothest fruits of any extra early variety.
3. It is enormously productive, bearing throughout the season.
4. The fruits ripen evenly up to the stem; no cripples, cracked, blighted or wrinkled fruit. A very good shipper, as it will not burst.
5. It is of the most brilliant red color and the flavor is deliciously sweet.
6. It produces an enormous crop, 50 to 100 fruits to each plant.
7. In shape* and form exactly like the photograph.

Market gardeners, with whom earliness is a great factor, will find that our northern grown seed will produce a crop that will ripen earlier, produce a larger crop and more solid fruit, than seed grown further south. Plant JUNG'S JOHN BAER once and you will not be without it again. Price of seed of our own growing:

Pkt. 10c; $\frac{1}{2}$ oz. 40c; 1 oz. 75c; lb. \$6.00, postpaid.

I was so pleased with your seeds last spring and determined to order from you this spring. I can't speak highly enough for your John Baer Tomatoes; they are grand.—N. E. Sabin, Barron, Wis.

I find that the John Baer Tomato leads them all around here. Although the plants were set out late, they have done exceptionally well. From those you sent me last spring we have gathered nice round and juicy fruit.—L. K. Lee, St. Paul, Minn.

Magnificent

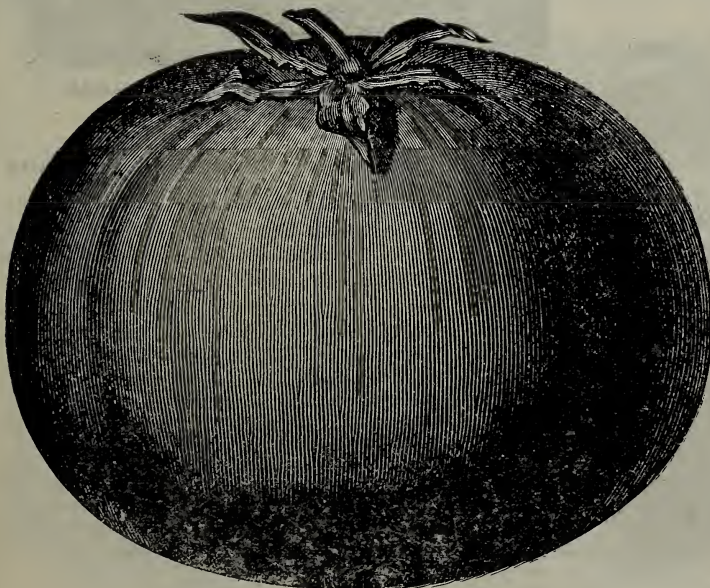

A TRULY MAGNIFICENT, RED MAIN CROP TOMATO

It has been tried in various climates and different soils and always came out successfully. It is different from all other Tomatoes in the following particulars:

1. The plants root well from the very beginning of their growth.
2. As the result of this strong growth of root, there is a large and vigorous growth stalk to support the weight of the fruit.
3. As the result of the strong stalk, the spreading branches produce a great abundance of fruit from each plant.
4. The fruits are large, solid and smooth, easily prepared for market on account of its perfection.
5. The plants are hardy, can be set out early and not be injured by the cold if protected from frost.
6. The fruits ripen early, and the later fruit on the vines is just as large and perfect as the first.

The color is a bright red; skin always smooth, free from all cracks and blemishes, and the flesh is of exceptional fine flavor.

Pkt. 10c; oz. 45c; $\frac{1}{4}$ lb. \$1.30, postpaid.

MAGNIFICENT

NEW CORELESS

Trucker's Favorite

THE FINEST LARGE FRUITED PINK TOMATO

Very uniform in shape and size; thick netted and solid; one of the largest Tomatoes grown. The fruits are of a beautiful purplish red or pink color, always smooth and fleshy. They hold their size to the very last picking and ripens well to the stem. Vines are of strong, vigorous growth, ripening the first fruits early. The vines are not subject to blight or rust and produce enormous crops until killed by frost. Delightful in quality and flavor and unexcelled for slicing or cooking.

As a dependable, main crop pink Tomato, Trucker's Favorite can't be beat. Pkt. 5c; oz. 30c; $\frac{1}{4}$ lb. 80c.

TRUCKER'S FAVORITE

TOMATOES—Continued

New Coreless

A LARGE, MAIN CROP, GLOBE SHAPED, BRIGHT RED VARIETY

Its shape is almost round, being about the same diameter each way. The depression at the stem-end has been almost eliminated, making it the most profitable variety for canning. It is immensely productive, clusters of four to seven fruits are produced at six to eight inches apart along the vines.

All the fruits are of remarkable size, many of them are quite large—12 to 15 ounces. A good slicing variety, the seed cells being surrounded by bright red, heavy, meaty and delicious flesh. Its color is bright red, and the fruits ripen all over and at the same time. Always free from green cores.

Every gardener should give this new Tomato a trial.

Pkt. 10c; oz. 35c; $\frac{1}{4}$ lb. \$1.00.

EARLIANA

"Fairfield's Strain" of Earliana

A perfect early Tomato, large in size and beautiful in color, nearly seedless and very solid; a vigorous grower and prodigious bearer, yielding its splendid fruit until frost. Its solidity and fine quality are equal to the best medium and late sorts. The plants are compact in growth, with short, close-jointed branches, setting fruits very freely in the center. It has become very popular with market gardeners who aim to supply the early demands of their market. On account of its firm skin it is an excellent variety for long distance shipping. The fruits mature quickly and generally can all be gathered in about three weeks from the time the first fruit ripens. The Tomatoes are quite uniform in size and of smooth, regular form, averaging three inches in diameter and $2\frac{1}{2}$ inches in depth.

Pkt. 5c; oz. 30c; $\frac{1}{4}$ lb. \$1.00.

J. W. JUNG SEED COMPANY

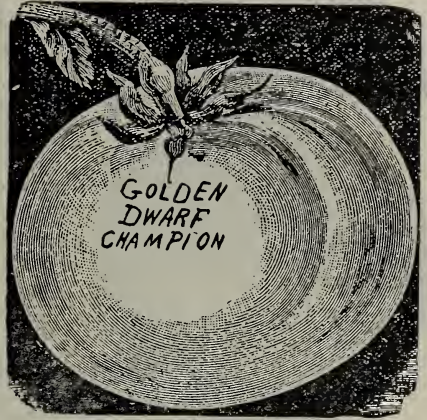

SEED GROWERS RANDOLPH, WISCONSIN

TOMATOES — Continued

Golden Dwarf Champion

The famous Golden Dwarf Champion owes its wide popularity to its stiff, vigorous, upright growth, with fruit well above the soil, its large fruit and fine color, and to the earliness with which it reaches maturity. Plants are bushy and compact, with heavy dark green, potato-like foliage. The tomatoes are always smooth, round and solid, and of a beautiful lemon color. Nothing makes a more tempting dish than red and yellow tomatoes sliced together. This variety has an unusual flavor, especially fine for preserves, as it does not require as much sugar as other varieties.

Pkt. 5c; oz. 35c; $\frac{1}{4}$ lb. 80c.

Jung's Prizetaker Tree

Extra Early and Large Fruits. Enormous Yields. Bright Red

The best variety for the home garden. It is the largest fruited dwarf or tree tomato. The plants grow to a height of about two feet and are stiffly erect until they become overloaded with fruit. The fruit is produced in clusters of three to five, and as the growth is close-jointed, each plant produces a large number. The tomatoes are of large size and are smooth and solid. Fruits have a solid, meaty center and no hard core and produces but very little seed. We consider the PRIZETAKER invaluable for the home garden or shipping purposes.

Pkt. 10c; oz. 40c; $\frac{1}{4}$ lb. \$1.40.

JUNG'S PRIZETAKER TREE

TURNIPS

White Dutch Flat

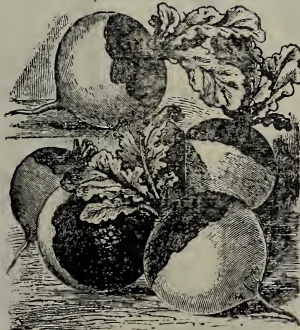

A very popular sort for either table use or for market. The roots are of medium size, very handsome, smooth and of clear ivory white, both inside and out. The flesh is fine grained, tender and of mild, sweet flavor. It is one of the best varieties for the family garden, as in addition to the heavy crop assured by its adaptability to close planting, it will be found to be the best sort for spring planting. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 25c; lb. 85c, postpaid.

WHITE FLAT DUTCH

Purple Top White Globe

This grows very quickly to large size; roots even and regular in form and of most handsome appearance. The bulbs will measure six inches and more in diameter, being of perfectly globe form; the upper portion is of rich, purplish red, and the lower half clear creamy white. Flesh white, firm and crisp, of mild flavor. It is an excellent keeper, and being so productive, is one of the best to grow for stock feeding. The plants being of such large, strong growth, should be thinned more liberally than with small early sorts. This variety is very extensively used for market growing. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 35c; lb. \$1.25, postpaid.

PURPLE TOP WHITE GLOBE

Purple Top Strap Leaf

The most popular sort. A general favorite with all and more largely grown than any other Turnip. Rather flat and of medium size. The color is purple above ground, white below; flesh white, fine grained and tender; leaves short, narrow and erect. A heavy cropper and an excellent keeper. Does well sown either broadcast or in drills, and will form good-sized bulbs in seven or eight weeks.

Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 25c; lb. 85c.

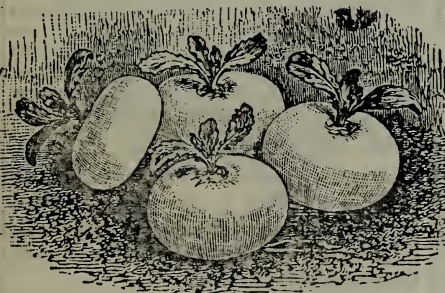

STRAP LEAF

Extra Early White Milan

A very valuable sort, largely used by market gardeners for first or extra early use. The quickest growing variety and under favorable conditions is fit for use in a few weeks after sowing. The roots are of medium size, of pure white color and very handsome in appearance. Flesh is fine grained, sweet and of mild flavor. A splendid variety for both the home and market garden.

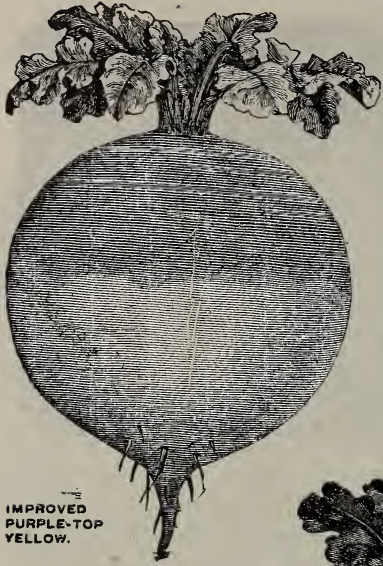

Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 35c; lb. \$1.25.

EXTRA EARLY WHITE MILAN

J.W. JUNG SEED COMPANY

SEED GROWERS RANDOLPH, WISCONSIN

Improved Purple Top Yellow

A hardy and productive variety, widely grown for market and stock feeding. It is of fine quality and keeps perfectly all winter and even into the following summer. Bulbs are large, smooth, round and solid, with a small tap root. Flesh richly colored, fine grained and very sweet. It is justly held in high esteem for both table and stock feeding purposes. The shape is well pictured in the illustration.

Pkt. 5c; oz. 15c; 1/4 lb. 35c; lb. \$1.25.

Golden Ball Turnip

Of the yellow or golden fleshed turnips this is the best variety. Roots grow quickly to good size, are smooth and very fine in appearance. Flesh is a rich yellow color, tender and mild in flavor; in fact we consider it the best turnip for table use.

Pkt. 5c; oz. 15c; 1-4 lb. 30c; lb. \$1.00.

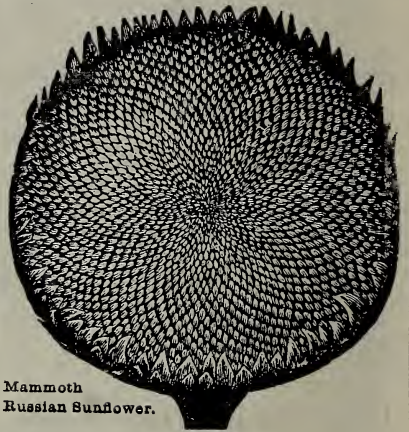

Perfect Model

A great improvement in the stocks of Ruta Bagas offered. Roots grow to good size, are smooth and solid and do not have a tendency to grow a long neck. The roots are a rich yellow at the bottom and purple on top. Flesh deep orange in color, fine grained and very sweet. A most profitable variety to grow for market.

Pkt. 5c; oz. 15c; 1-4 lb. 35c; lb. \$1.35.

PERFECT MODEL

Mammoth Russian Sunflower.

Mammoth Russian Sunflower

Single heads measure 12 to 22 inches in diameter and contain an immense quantity of seed, which is highly valued by all farmers and poultry breeders, who have tried it as an excellent and cheap food for fowls. They eat it greedily, fatten well on it and attain a bright, lustrous plumage and strong, healthy condition better than on almost any other food. It is the best egg producing food known. Every farmer should plant some of the seed in any waste piece of ground any time from early spring to the middle of July. Four quarts of seed will plant an acre. The seed is also recommended as an excellent food for horses. Oz. 5c; 1/2 lb. 20c; lb. 30c, postpaid.

For prices on larger quantities see wholesale list on back page 48.

JUNG'S GIANT FANCY ASTERS

Without any exception the best mixture of beautiful large Asters. : : :

Only the very best varieties are used in making up this mixture. It contains the best and latest in productions, also new varieties originated at our Fairfield Farm and include the most rare and beautiful colors. The flowers are very double and do not show a yellow center; blossoms five inches in diameter, borne on stems two feet long, are often produced.

Pkt. 10c; 3 pkts. 20c.

GIANT FANCY ASTERS

Don't forget that we prepay the postage on all seeds by the packet, ounce, quarter pound, pound, half pint, pint and quart. Remember this when comparing prices.

LAWN GRASS—Fairfield Special Mixed

Always Grows, Always Thrives. Hardy, Deep, Velvety Green. Sure to Please.

Our mixture combines the very best varieties of grasses suitable for the purpose of making a lawn beautiful in appearance, durable and lasting, which will stand the frosts of winter and the hot sun of summer, showing a deep, rich green at all seasons. The seed used is PURE AND HEAVY and is especially cleaned. This mixture weighs from 25 to 27 pounds per bushel, is of strong vitality and makes a quick, healthy growth. One pound of our mixture weighs as much as two quarts of any other seedsmen's brands. Pound 40c, postpaid. Not prepaid: lb. 35c; 5 lb. \$1.60.

Jung's Superb Asters

Asters are our great specialty in the flower seed line and the degree of perfection to which we have brought the strains we are offering, is unsurpassed. We are the greatest growers of ASTER SEED in the NORTH-WEST. No other flower can approach the Aster in beauty, color, form or profusion of bloom. They are very hardy, easily grown and may be had in bloom from early summer until hard frosts. We are ASTER SPECIALISTS and our seed of these grand flowers is absolutely unexcelled.

Pink Enchantress

This we consider as one of the most beautiful Asters. The flowers are very large and of a soft sea-shell pink color and are borne on extra long stems. Flowers will last fully two weeks in fresh water. For refined beauty nothing can excel a bouquet of these grand Asters. The plants are unusually vigorous in growth.

Pkt. 10c.

PINK ENCHANTRESS*

JUNG'S FAIRFIELD ASTER

Jung's Fairfield Aster

We take pleasure in offering our customers this new Aster which is in a class by itself. The flowers are immense in size, single blossoms measure six inches across, and being borne on long stiff stems they rival Chrysanthemums for bouquets. A bed of these Asters look like a snow-drift. The petals are very long and are curled and twisted to a remarkable degree. The plants are strong and healthy and it is not an unusual thing to find one with a dozen long, graceful stems, each crowned with flowers from four to six inches in diameter. Colors: White, Shell-pink, Rose, Purple and Mixed.

Each 10c per pkt. One pkt. of each for 25c.

Last year I had a package of your Giant Fancy Asters and had the most beautiful bed one would wish to see, hence my orders and the orders of my neighbors.—
Mrs. Thos. Wien, Freemansburg, Pa.

Jung's Innocence—The Earliest of all, Pure White.....	10

Catalogue Value..... 70c

From no other seedsman can such a grand assortment of ASTERS be had for such a small price.

With each collection we send FREE INSTRUCTIONS on how to grow the large fancy flowers.

These packets are regular full sized and contain only the choicest of seed.

Jung's American Beauty Aster

The petals of this grand new Aster are almost a half-inch wide. It is almost identical in color to the popular American Beauty Rose, hence the name. The plants are strong growers, from 35 to 40 inches tall, well supplied with heavy foliage, and is a prolific bloomer. The immense fluffy flowers are borne on stems from 18 to 24 inches long. Specimen plants carried from 8 to 12 blossoms, each measuring over four inches across. We offer same in rose and purple.

Pkt. 10c; 1 pkt. of each for 15c.

Extra Early Asters—Jung's Innocence

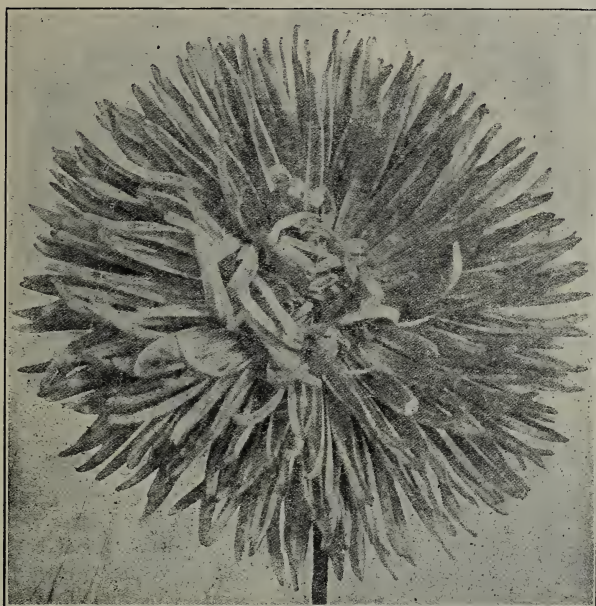

Many people want Asters that come into blossom very early and we recommend these in every respect, as they come fully two weeks earlier than most other sorts. The blossoms are of good size, produced on long stems and are full and double to the very centers. You will be more than pleased with these extra early Asters. White, pink, lavender and purple, 10c per pkt. One pkt. of each for 20c. Mixed colors 5c.

JUNG'S INTERNATIONAL MIXED ASTERS

J. W. JUNG SEED COMPANY

SEED GROWERS RANDOLPH, WISCONSIN

KING ASTER
King Asters

This is a popular variety, vigorous in growth, with long, stiff stems and luxuriant foliage of richest green. In form the flower is entirely distinct; petals resemble the quilled varieties, but are much larger and broader; those in the center being twisted, curled and incurved, completely covering the crown. The bloom is round, full and large, many of the flowers measuring from 4 to 5 inches across. Violet and Rose. Pkt. 10c; 1 pkt. of each for 15c.

ANTIRRHINUM (SNAPDRAGON)

Jung's Giant Mixed

The flowers were great favorites in old gardens, but our strain is such a great improvement that anyone would hardly recognize them as the same flower. The bushes grow about 18 inches tall and produce splendid spikes of blossoms from 15 to 18 inches long in all shades of red, rose, salmon, yellow and white. Very easy to grow and should be in every flower garden. Pkt. 5c.

BALSAM Defiance Mixed

A favorite quick growing annual. The plants form symmetrical, well-branched, erect bushes, about two feet high. The branches are well covered with beautiful double flowers. The colors include white, rose, scarlet, crimson, purple, lilac and violet. Although such generous bloomers, they are shy seeders. This variety is distinctly Camellia flowered. Our strain of these is unsurpassed for size of blooms, doubleness and beauty of flowers. Pkt. 5c

BALSAM--DEFIANCE MIXED

JUNG'S GIANT LATE BRANCHING

Jung's Giant Branching Asters

After a number of years of careful selection we have brought this Aster to a state of perfection where it is unexcelled. Plants form strong, stocky bushes, about 2 feet high, bearing on long stems their pretty flowers which measure from 4 to 5 inches across. The petals are gracefully curved toward the center and do not have an exposed yellow center. Plants are of strong, vigorous growth and yield a profusion of flowers from the middle of August to heavy frost. This variety is unexcelled for bedding or for bouquets.

ANTIRRHINUM a profusion of flowers from the middle of August to heavy frost. This variety is unexcelled for bedding or for bouquets.

White, Shell Pink, Rose Pink, Purple and Lavender. Each 10c per pkt. Mixed colors 5c.

SPECIAL OFFER: One pkt. of each for 20c.

I bought Aster seeds from you which was better than I could buy here and that is the reason I am ordering them from you again this year. The flowers were very fine and I hope I will have the same luck with them this year.

—Geo. Miller, Baltimore, Md.

J.W. JUNG SEED COMPANY

SEED GROWERS RANDOLPH, WISCONSIN

AFRICAN DAISY

African Daisy

This extremely showy annual has become a great favorite everywhere on account of its very easy culture and most beautiful flowers. The hardy plants of neat, branching habit, grow only 12 to 15 inches high and are exceedingly profuse in flowering. Its Marguerite-like blossoms, $2\frac{1}{2}$ to $2\frac{3}{4}$ inches in diameter, are of a peculiarly rich, glossy orange-gold. It bears its showy flowers very soon after being planted out in the open ground in sunny situations. A bed in full bloom is truly a magnificent sight. Pkt. 5c.

SHASTA DAISY

Shasta Daisy

This Giant Daisy is a production of Mr. Luther Burbank. It is a perfectly hardy perennial, bearing sturdy, lasting flowers, averaging 4 inches in diameter on long, stiff stems. The petals or rays are pure white. Blossoms all season. Pkt. 5c.

DIANTHUS—FAIRFIELD FINEST MIXED

Fairfield Finest Mixed Dianthus

These hardy annuals may be ranked among the fairest gems of our flowers, as few can equal them in beauty or profusion of blooms. They are of the richest and most varied colors. The plants spread rapidly and make ornamental masses of growth. They may be sown in the open ground when danger from frost is over, and in a few weeks they are masses of blooms, continuing so until frost. Our mixture includes the best single and double sorts. Pkt. 5c.

DIANTHUS FIREBALL

Fireball Dianthus.

Flowers are double crimson and their beauty is scarcely surpassed by other flowers. Plants grow dwarf and bushy. It is fine for bouquets and cut flowers. Pkt. 5c.

COSMOS—Early Summer Flowering

Grace and brilliancy are the characteristics of this pretty annual. The beautiful flowers, with their deep, broad petals, rise from a cloud of fine, feathery foliage. They are of compact, bushy growth, about four feet high, with flowers fully as large as the old variety. Flowers are of various shades, ranging from pure white to purplish crimson. Pkt. 5c.

CANDYTUFT—Little Prince

This is a dainty and distinct Candytuft, the plant growing only about six inches high and bears immense spikes of snow-white flowers in great abundance, remaining in perfection longer than any other annual strain. Pkt. 5c.

The greatest bargains in Asters is JUNG'S QUALITY ASTER COLLECTION. Seven full sized pkts. for only 35 cents.

J. W. JUNG SEED COMPANY

SEED GROWERS RANDOLPH, WISCONSIN

CHINESE WOOL FLOWER

Most Magnificent Garden Annual Ever Introduced. The plants average 2 feet in height branching freely, each shoot bearing a beautiful ball of scarlet wool. It flowers early and profusely and the heads of bloom, mixed with fresh green foliage, makes the plant look like one immense bouquet set in the ground. They continue to glow with a richness of color, a deep crimson-scarlet, all summer and fall, until severe frosts destroy them. A rare novelty. Fresh cut flowers when dried are much used for winter decoration. Pkt. 10c.

CHINESE WOOLFLOWER

DAHLIAS

JUNG'S FANCY MIXTURE

The Dahlia still holds its place as "king" of all out-door autumn flowers, and they may be grown to the greatest perfection from seed, blooming beautifully the first summer. As easy to grow from the seed as the most common plant. Anyone can have a magnificent display of these regal beauties at very small cost; continue to bloom profusely until severe frost, when the bulbs can be taken up and stored until spring. A superb mixture of the finest double varieties of largest size and finest colors. Pkt. 10c.

CARNATIONS

CARNATIONS — Giant Marguerite

These lovely fragrant Carnations produce fine double flowers. The flowers of this wonderful strain often measure three inches across and have a variety of colors, including white, blush, deep pink, salmon, scarlet, maroon and many variegated flowers. Most of them have lovely fringed petals. One great merit of these Carnations is that they begin to flower in about 13 weeks' time from seed sown early in the spring. Pkt. 10c.

CANNAS

CANNAS—Crozy's Hybrids

Very showy bedding plants with their tropical foliage and immense flowers borne on stalks three to seven feet high, in all brilliant colors. Cannas are very easily grown from seed. For best results pierce the seed and soak in warm water, then sow in a warm place or hot bed. Seeds started in March or April produce a brilliant bed by July. Pkt. 5c.

CALIFORNIA POPPY

Golden West

They are extremely handsome, low and quick growing annual plant, with finely cut foliage and cheerful blossoms. The flowers are light canary yellow with a large rayed blotch of deep orange at the base of each petal. Plants are about one foot high and easy to grow. They are ornamental and bloom until killed by frost. The blooms are beautiful and variously formed. Pkt. 5c.

CELOSIA—Magnificent

This grand plumed Celosia is always one of the most admired plants for its rounded form and Each branch has a pointed tip of richly colored bloom which later broadens to a loose, plummy head of the most brilliant color, all shades of orange and yellow, pink, scarlet and crimson, having a softness most pleasing to the eye. Pkt. 5c.

CALIFORNIA POPPY

CELOSIA

J.W. JUNG SEED COMPANY

SEED GROWERS RANDOLPH, WISCONSIN

IMPERIAL JAPAN^{SE}
MORNING GLORY — Imperial Japanese

The robust vines attain a height of from 15 to 20 feet. The foliage is luxuriant, distinct and varied, green, silvery and yellow leaves. Their charm lies in the entrancing beauty and large size of the flowers; they measure from 3 to 4 inches across. The colors of the flowers, shades and markings are limitless. Some flowers are of deep, rich, velvety colors, others daintily tinted and shaded. There are reds from soft rose to crimson and garnet; daintiest blue to purple; snow-white to silver gray. They are easy to grow and quick to come into bloom.

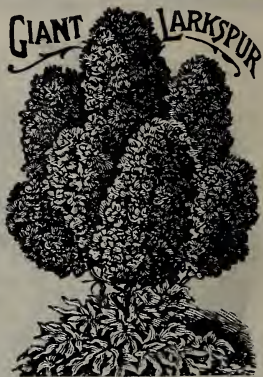

Pkt. 5c.

EVERBLOOMING ANNUAL HOLLYHOCKS

Everblooming Annual Hollyhocks

The diversity of forms and colors among the flowers which blossom the first season, affords many delightful surprises. Some plants produce densely double flowers without guards, others with guard petals: there are semi-doubles, then single sorts with double centers, others flounced, and the flowers are usually very large, some measuring five inches across. In colors there is also a great variety, some richly brilliant, others dainty and exquisite, ranging from black maroon, wine red to orange, pink and white. They flower profusely until killed by frost. Pkt. 5c.

GIANT LARKSPUR

An improved type, producing large flowers, very double, of various colors, shades and markings, which are borne on long spikes like immense Hyacinths. Can be easily grown in the open ground.

All colors mixed. Pkt. 5c; 2 pkts. 10c.

MIGNONETTE—Bismark

MIGNONETTE—Bismark

One of the finest, being of strong growth, healthy and deep rooting. The average spikes of flowers are immense, measuring 6 to 8 inches long by 2½ inches in diameter and are compactly filled with giant florets, measuring ½ inch across and packed full, even to the center, with anthers. The color of the bright red florets is strengthened on account of the density of the florets and spikes, thus presenting almost solid columns of brilliant red, effectively contrasted against the healthy green foliage. Pkt. 5c.

Special Mixed Mignonette

Contains seeds of all the standard sorts and the latest introductions, there being red, yellow and white colors. Pkt. 5c.

NICOTIANA

Sanderae Hybrids.

These flower from early summer until late in autumn. Their beauty is beyond description, flowers produced being purple, dark and light red, snow-white, violet, salmon, crimson, pink and various other shades. It is a very easily cultivated plant, thrives in any soil, either in pots, boxes or in the open ground. The cut blooms last well, opening freely in water. All colors mixed. Pkt. 5c.

Nicotiana, Sanderae Hybrids

J.W. JUNG SEED COMPANY

SEED GROWERS RANDOLPH, WISCONSIN

MARIGOLD — Lemon Ball

This extremely showy annual has become a great favorite everywhere on account of its easy culture and most beautiful flowers. The hardy plants, of neat, branching habit, grow from 15 to 20 inches high and are exceedingly profuse in flowering. The extra large, round, double flowers are of a clear canary yellow. The petals are heavily rolled and are crowded so

MARIGOLD
closely together as to appear lacinated. Pkt. 5c.

GIANT FLOWERED TALL NASTURTIUMS

This mixture is absolutely unsurpassed. Nothing can excel the wealth, richness and variety of these Nasturtiums for trellis, bush or rocky planting, nor surpass them in freedom and profusion of bloom. They throw out running shoots that can be trained upon strings or wires or can easily be made to climb ordinary fences or wire netting. On good soil they will grow eight feet high. Single flowers measure four inches across. Flowers are of various shades. Pkt. 5c: oz. 20c.

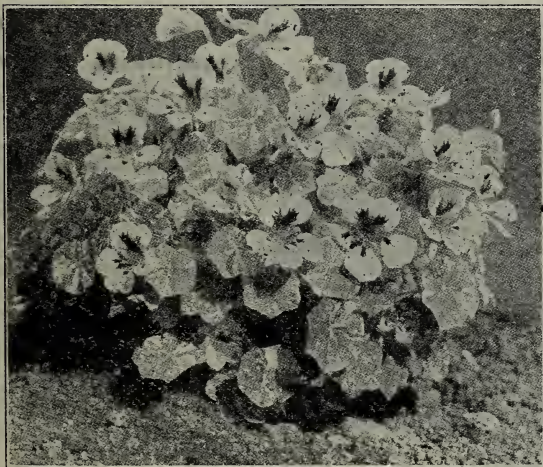

TALL OR CLIMBING GIANT FLOWERED NASTURTIUMS

BRILLIANT BEAUTIES DWARF NASTURTIUMS

The plants are of strong, vigorous growth, erect habit and beautifully rounded form. The leaves on different plants range from light green to a rich purplish tint. They are of quick growth, begin to bloom early in the summer and continue to flower profusely until killed by frost. So greatly diversified are the colorings that it seems almost impossible to find two plants bearing flowers alike. The flowers are not only wonderfully brilliant, but also of large size. It makes an excellent variety for bedding.

Pkt. 5c; oz. 20c.

BRILLIANT BEAUTY DWARF NASTURTIUM

BABY GOLDEN GLOW

A most charming annual, growing about 15 to 18 inches high, bearing scores of bright yellow flowers. Seeds should be started in doors; the plants will begin to bloom almost as soon as set in the open ground, affording an almost unlimited supply of cut flowers. One of the best bedders. Likened to Golden Glow on account of color, shape and profusion of bloom. Pkt. 5c.

BABY GOLDEN GLOW

JUNG'S GIANT FANCY MIXED

PANSIES

Jung's Giant Fancy Mixed

This "Fancy Mixture" contains seeds of the largest, richest and handsomest pansies known to the horticultural world.

The well formed expanded flowers are uniformly of the largest size and of fine substance; they are borne on long, stiff stems, well above the heavy, deep green foliage. The colors are rich and varied, such as white, cream, yellow, deep orange, mahogany, claret, rose, reddish bronze, lavender and light blue, and each petal is distinctly blotched. The compact, rounded plants are of sturdy habit and so deep rooted that they bear gigantic flowers profusely and continuously. The petals are of thick, heavy substance, large size and various shapes. Pkt. 15c.

J.W. JUNG
SEED GROWERS

SEED COMPANY
RANDOLPH, WISCONSIN

LARGE FLOWERING MIXED

Large Flowering Mixed Pansy

This mixture is composed of the finest large flowering varieties and contains some of the richest colors. The plants make strong growth and bloom freely. Pkt. 5c

NEW DWARF PHLOX, NANA COMPACTA

Nana Compacta Dwarf Phlox

This splendid race of dwarf annual Phloxes cannot be over-praised for brightness and beauty. The plants are always lavishly covered with large flowers of the most brilliant hues. Nothing better for bedding purposes is listed in this catalog. They succeed everywhere and are in universal favor for summer growing flowering purposes. Bushes are dwarf and compact, six to eight inches high, forming dense masses of bloom all summer. The colors include pure white, deep and showy red rose, with white eye and many other shades. They are quite hardy and are to be treated as annuals. Pkt. 10c.

Giant Masterpiece Pansy

This giant Pansy is remarkable for having its petals weaved or folded, giving it the appearance of a double flower. The truly giant-sized flowers are of the most striking character, the petals being of a rich, velvety substance and heavily ruffled. The colors are mainly dark rich shades, bordered, blotched or marked in ray-like veinings. The mammoth size, richness and beauty of colorings, combined with the distinctly frilled or ruffled character of the petals, makes the Masterpiece one of the most interesting novelties in Pansies ever developed. Pkt. 20c.

GIANT MASTERPIECE

Phlox Drummondii Grandiflora Mixed

The Best of all Bedding Plants.

This superb strain is notable not only for variety and brilliancy of colors, but also for the perfection and size of the flowers. Many of the single flowers are so large that they will nearly cover a 50-cent piece. The colors range from pure white to the deepest red or crimson, while the clear eye of some of the flowers is peculiarly marked. In good rich soil they will grow 18 inches high, and for a mass of splendid colors no flower will give a more satisfactory return for so little cost. No garden should be without these most of all dwarf growing annuals. Pkt. 5c.

CHRISTMAS KOCHIA

Christmas Kochia

A great improvement on the old variety, as this new strain retains its beautiful color until late in the winter, while the old variety dried up in September.

The bushes are a mass of dense live green in summer, while after frost it turns to rosy claret-red and is highly ornamental after all other plants and shrubs are dead and the effect of this color against the snow is certainly a beautiful sight. The plants grow 3 to 4 feet high, are very dense and symmetrical in shape from the very start. It is also very desirable as a pot plant, being especially fine for Christmas and New Year decorations. We are sure you will be more than pleased with this new ornamental plant. Pkt. 5c.

PHLOX DRUMMONDII

J.W. JUNG SEED COMPANY

SEED GROWERS RANDOLPH, WISCONSIN

Re-Selected Shirley Poppies

The most showy of all Poppies. A bed of them in your garden is a sight to behold. Flowers about three inches across, exceedingly graceful and elegant. The colors are pure, soft and varied, and range from pure white, blush rose, delicate pink and carmine, to orange, scarlet and bright, sparkling crimson, occasionally blotched with white. All who admire the delicate beauty of the Shirley Poppies, will be delighted with this re-selected strain of the finest colors and most charming markings. Few flowers can show such a grand array of colors. Pkt. 5c.

ICELAND POPPIES

Double Featherball Poppies

These double fringed annual Poppies are very beautiful; they belong to the carnation-flowered type, the large flowers having the same globe-shaped formation, with gracefully fringed petals like big balls of slashed tissue paper.

Plants are of branching, stocky growth, 15 to 18 inches high, each plant carrying several of these exquisite flowers. The great variety of coloring ranges from the most gorgeous shades down to shades of pure white. They are of the easiest culture. Mixed colors.

Pkt. 5c.

DOUBLE FEATHERBALL POPPIES

With each order we send a booklet on growing vegetables and flowers FREE

RE-SELECTED SHIRLEY POPPIES

Iceland Poppies

The Iceland Poppies are perennials, blooming the first season from seed. The fragrant, elegant, crushed satin-like flowers are produced continually from June to October. They are of graceful, neat habit, with bright green, fern-like foliage, formed in tufts from which issue slender stalks about 12 inches long, bearing their brilliant flowers in endless profusion. Their long stems and lasting qualities make them invaluable for cut flowers. The flowers last fully a week if cut as soon as open.

Pkt. 5c.

PETUNIA—Defiance Mixed

This strain bears grand, substantial flowers of the largest size in profusion. The flowers frequently measure five inches across, while the colors are indescribably rich and varied. Most of the flowers are beautifully fringed and have open throats. All are distinctly veined, especially in the throat portion, and in many the throat is darker than the other portion of the petals, imparting a rich, velvety effect. The foliage is large and heavy and very dark green

in color. Some of the colors are rich and gorgeous, while others are of lovely delicate shades Pkt. 15c.

LARGE FLOWERING MIXED PETUNIA

No annual flower is more widely used than the Petunia. It begins to bloom early and lasts the whole season until killed by the frost. Most of the flowers are exquisitely ruffled or fringed on the edges and are of enormous size, but their great merit lies in the tremendous variety of colors, markings, blotches and stripings, in the most grotesque and beautiful combinations. Some colors are rich and gorgeous, others are of lovely, delicate shades. Pkt. 10c.

J. W. JUNG SEED COMPANY

SEED GROWERS RANDOLPH, WISCONSIN

SALVIA—Bonfire

A GREAT 'BEDDING PLANT. One of the grandest varieties in cultivation. A bed of them will surpass the finest scarlet geraniums in brilliancy and continuous bloom. The plants are compact growers, attaining a height of about 30 inches and single plants often carry 200 spikes, measuring from 8 to 12 inches in length; flowers are a brilliant, dazzling scarlet, and from the time they first begin to flower the plants are never out of bloom until killed by frost. We know of nothing that will equal the gorgeous effect of a row or bed of these Salvias when in full bloom. Pkt. 10c.

CHRYSAETHUM
FLOWERED

SALVIA—SPLENDENS

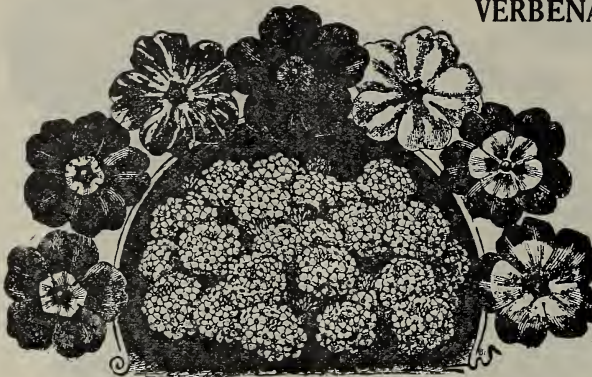

SALVIA—BONFIRE

SALVIA—Splendens

"The Most Dazzling Scarlet Flower." The handsome bushes are three feet high and as much in diameter when of full size. Single plants often bear 100 spikes of flowers, each about eight inches long. It is excellent for filling large beds or borders in the garden. It blooms continuously from early in August until frost. Nothing is equal to a bed of these flowers, which for months is a blaze of intensely brilliant scarlet. Pkt. 10c.

SUNFLOWER — Chrysanthemum Flowered

Grows seven feet tall. Perfectly double. The color is the brightest golden yellow. The plants branch and afford fine, stout stems for cutting. This gigantic Sunflower will be of great value for the hardy garden and herbaceous border. The flowers are so perfect in form that they resemble Chrysanthemum flowered Asters with long stems. This is the very best variety Pkt. 5c.

VERBENA—FAIRFIELD

VERBENA Fairfield Famous Mixed

A choice perennial, 6 to 12 inches high, indispensable for bedding purposes. The average trusses measure 9 to 12 inches in circumference and the individual florets, on properly grown plants, measure over one inch across. They bloom freely, are vigorous in growth and contain beautiful new colors and shades. For garden beds and massing, these Verbenas are unrivaled; flowers of the most brilliant colors produced continually from spring until late in the fall. Pkt. 5c.

STOCKS — Improved Dwarf Mixed

The plants are of fine symmetrical habit and bushy, and carry immense spikes of double clove-scented flowers, ranging in color from rose, white, blue, lilac, brown and yellow. Very fragrant and as cut flowers are unsurpassed. Pkt. 5c.

ZINNIAS — Fancy Double Mixed

A highly decorative plant, forming compact and bushy plants often 2 feet high. Flowers have a wide range of colors, from cream white, yellow and deep orange, some petals beautifully marked with chocolate and crimson blotches. Invaluable for bedding or cutting purposes. ZINNIAS are sure to please all lovers of unusual and artistic flowers. Pkt. 5c.

SEED GROWERS RANDOLPH, WISCONSIN

MARGARET ATLEE

Giant Orchid Flowered Mixed

The new Spencer Sweet Peas are robust growers, producing flowers usually measuring two inches across, borne three and often four on long, strong stems, making them valuable as cut flowers for bouquets, vases or other decorations. The flowers are beautifully formed, the upright standards and immense wings of the finest waved and fluted form.

This mixture has been made with extraordinary care by us from the finest named, true, large flowering Spencer varieties introduced to date, and in such quantities as to produce a well balanced and finely proportioned color effect. All dull and undesirable colors have been omitted, making this mixture the best ever offered. No better can be had.

Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 50c.

GIANT ORCHID FLOWERED MIXED SWEET PEAS

Mrs. Routzahn Spencer

A beautiful blending of soft straw color, tinted with blush pink and shading to apricot and rose at the edges. The vines are strong and thrifty and the stems are from 12 to 14 inches long and seldom produce less than three flowers, while many will bear four grand flowers to a spray. The flowers are of the largest size and are thoroughly crimped and waved.

Pkt. 10c; 3 pkts. for 20c.

GIANT SPENCER SWEET PEAS

These new Sweet Peas are of enormous size, which, together with their charming colors and waved and fluted appearance, entitles them to be put in a class by themselves. Some of the flowers grown on our farm measured $2\frac{1}{2}$ inches across. The plants are vigorous in growth and should stand at least 18 inches apart.

KING WHITE SPENCER

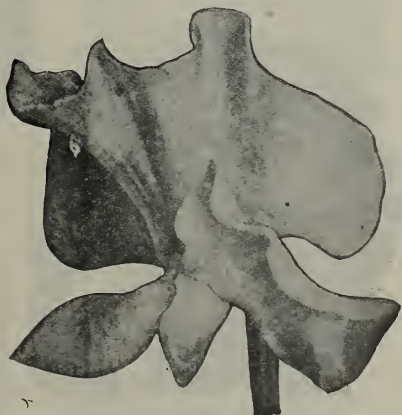

King White

The grandest of all white Sweet Peas. Remarkable for its glistening pure whiteness and perfect finish of the flower. The grand flowers are grown almost invariably in fours on stout stems of great length. The plants are exceptionally vigorous in growth, with distinctive rich green foliage, and wonderfully profuse in bloom for a long season. King White is the largest white Spencer yet introduced and will create a sensation wherever grown. Give this remarkable new introduction a place in your garden. Pkt. 10c; 3 pkts. for 25c.

Margaret Atlee

Practically a new shade of pink. The lovely flowers, uniformly of the most advanced Spencer type, are a rich glowing pink on cream ground, while the wings are a pleasing shade of pinkish rose and salmon. The flowers are of extraordinary size, exquisitely waved and freely produced in fours on long stout stems.

Pkt. 10c; 3 pkts. for 20c.

MRS. ROUTZAHN SPENCER

You will be well pleased with Jung's Sweet Peas

SEED GROWERS RANDOLPH, WISCONSIN

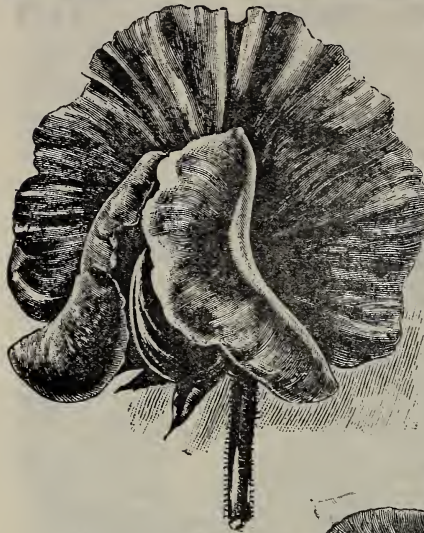

SWEET PEAS--Continued

KING EDWARD.

The most brilliant scarlet Sweet Pea yet produced. The vines are strong, grow rank and high, and bear on stout stems three and four large well-placed blossoms. Flowers are of perfect form. Pkt. 10 c.; 2 pkts. 15 c.

ELFRIDA PEARSON.

The color is a lovely pink throughout, the buds and flowers being tinted with salmon-pink. Flowers are of extra large size and are borne on long stiff stems, generally four to a spray. Vines are strong growers and profuse bloomers. Pkt. 10c.; 3 pkts. 20 c.

ELFRIDA, PEARSON

ASTA OHN SPENCER.

The color throughout both standard and wings is a charming soft lavender.

The flowers are of large size, pronouncedly waved and fluted in the standard with unusually large wings. Stems are long and sturdy. Invaluable for cut flowers. Pkt. 10 c.; 2 pkts. 15 cts.

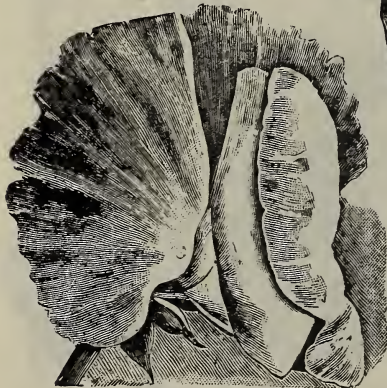

TRUE COUNTESS SPENCER.

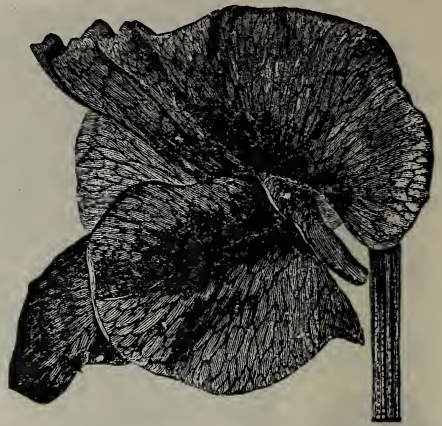

ASTA OHN

It combines all the good qualities of the best Sweet Pea. Color is a delightful soft pink, shading a little deeper at the edge of the petals. Stems are very long and generally bear four blossoms, all facing one way. The edges of wings and standard are just wavy enough to give it a graceful fluffy appearance. It is fragrant; begins to bloom early and continues until late in the season.

Pkt. 5 c.; oz. 20 c.

TRUE COUNTESS, SPENCER

KING EDWARD

Asta Ohn—Charming soft lavender.

King White—The largest white pea of all.

Elfrida Pearson—A lovely pure pink.

King Edward—A beautiful dazzling scarlet.

Orchid Flowered Mixed—A superb mixture.

One packet each of the above, with full instructions on how to grow the finest flowers for only 25c.

SUPERFINE MIXED SWEET PEAS.

This is not grown in mixture, but carefully blended of the finest large flowering varieties, including some of the most beautiful recent introductions. For flowers of delicate colors, varying from pearly white to the richest reds and purples, this mixture leads, because it is the result of selecting, year after year, seeds of the choicest flowers.

Pkt. 5c.; oz. 15c.; ¼ lb. 25c.

GLADIOLUS.

There is no flower of such easy culture, embracing the great range of color with endless combinations and variety, to equal the Gladiolus.

Our bulbs are of the finest quality and will give bountiful satisfaction the first season. The bloom is continuous from the end of July until frost. Cultural instructions sent with each order.

AMERICA—A beautiful shell pink. Very strong and healthy, with luxuriant dark green foliage and a freedom of growth and flowering surpassing all others. Spikes 2 to 3 feet long, with a great number of large spreading blossoms, all facing one way. Single flowers measure 4 inches across. 10 c. each; 95 c. per dozen.

MRS. FRANCES KING—Of exceptional value for cut flowers. Color is a very pleasant light scarlet. Individual blossoms are five inches in diameter and sometimes larger. Spikes produce 12 to 18 flowers and grow four feet high. Flowering is continuous. 10 cts. each; 85 c. per dozen.

VELVET KING—The color is a brilliant scarlet-crimson, usually carrying three white blotches on the lower petals. The flowers open out and perfect and are of enormous size. 10 c. each; 65 c. per doz.

BARON HULOT—The finest blue Gladiolus yet introduced. This bears a good-sized flower well arranged on long and straight spikes. The color is a deep violet, bordering on blue. 10 c. each; 75 c. per doz.

PANAMA—A new seedling of America which resembles the parent variety in every way except that it is a much deeper pink. A grand variety which evokes words of praise wherever exhibited. Spikes are very long with flowers large and well arranged. Many awards. 10 c. each; \$1.00 per dozen.

MRS. FRANK PENDLETON—One of the most exquisitely colored and formed Gladiolus in our list. Delicate Salmon-pink with brilliant deep red blotches in the throat, rivaling many of the finest orchids in richness of colors. Flowers are large and borne on a strong straight spike. Excellent for decorating. 15 c. each; \$1.30 per dozen.

GOLDEN WEST.

Bright orange with darker veinings. A big flower and spike. Each spike produces from 15 to 20 flowers. This variety is of good size in flower and spike, with long stalks.

10 c. each; \$1.00 per doz.

AMERICAN HYBRIDS.

The flowers of this mixture large, brilliant and effective, of perfect form and heavy substance. All are of strong, healthy upright growth. 5c. each; 50c. per doz.

Special Offer.

These are considered to be the cream of Gladioli. One strong bulb of each variety for 50 cts., postpaid.

J. W. JUNG SEED
SEED GROWERS RANDOLPH

COMPANY
WISCONSIN

Jung's Northern Grown Seed Potatoes

The Seed Potatoes which we are offering were all grown in the north from carefully selected stock and will yield bigger crops and mature much earlier than those grown further south. Prices subject to market changes.

RED RIVER EARLY OHIO

EARLY NEWMARKET

almost rounded to slightly flattened shape, which is well shown in the illustration. The vines are vigorous growers and will withstand unfavorable weather conditions that would destroy many other varieties. The vines will vary somewhat in character, but the tubers are very uniform. The skin is netted, which is nature's mark of quality: flesh is solid, fine-grained and cooks up dry and mealy. Prices: Lb. 30c, postpaid. By freight or express: Pk. 80c; bu. \$2.50. Second size: bu. \$1.90.

Red River Early Ohio

Money Makers—First Early—No Waste in Cooking or Peeling—Easy to Dig.

Skin light pink or flesh color; flesh pure white. Matures about one week earlier than Early Rose. Potatoes all run good marketable size, very few small ones, and the shape is so even they sell on sight in the market. Buyers know of the excellent quality and housewives find there is no waste in peeling; the eyes are set close to the surface. Further, it requires less expense than most varieties to grow; vines upright, allowing easy and thorough cultivation, and tubers are set in a compact clump near the surface, so that digging is easy. Our Red River grown seed of this variety will increase your yield far beyond your expectations. The soil in this valley is peculiarly adapted to the best development of the Potato crop. Not only do you get an increased yield, but the Potatoes are far better, cleaner and entirely free from scab, besides being pure, with none of the mixture usually found in eastern grown stock. It will pay you to change your seed. Our Red River strain will mature two weeks earlier than stocks grown farther south. Prices by mail, postpaid: 3 lbs. 50c. By freight or express: Pk. 95c; bu. \$3.00; 3 bu. \$8.85. Write for special prices on larger quantities.

A Grand New Potato—Early New Market.

This variety has been giving a splendid account of itself again the past season, it proving to be one of the very best extra early varieties.

This is an extra early variety, being ready to use as soon as EARLY OHIO, and thus far has outyielded all other early varieties. The vines are strong and vigorous in growth and the foliage retains its vigor and rich coloring until the plants are full grown. The tubers are of good size, a little long in shape and have a pure white skin. The cooking qualities are all that could be desired; in fact it is one of the finest varieties we have. From the time the tubers are as large as a hen's egg and until fully matured, they burst open when boiled with their jackets on, and appear snow-white and flaky.

Unlike most early sorts, it is of just as good cooking qualities during the winter as when first dug. Our stock is limited and we advise placing your order early.

Prices by mail: 3 lbs. 50c. By freight or express: Pk. \$1.00; bu. \$3.25. Second size: per bu. \$2.25.

Mammoth White

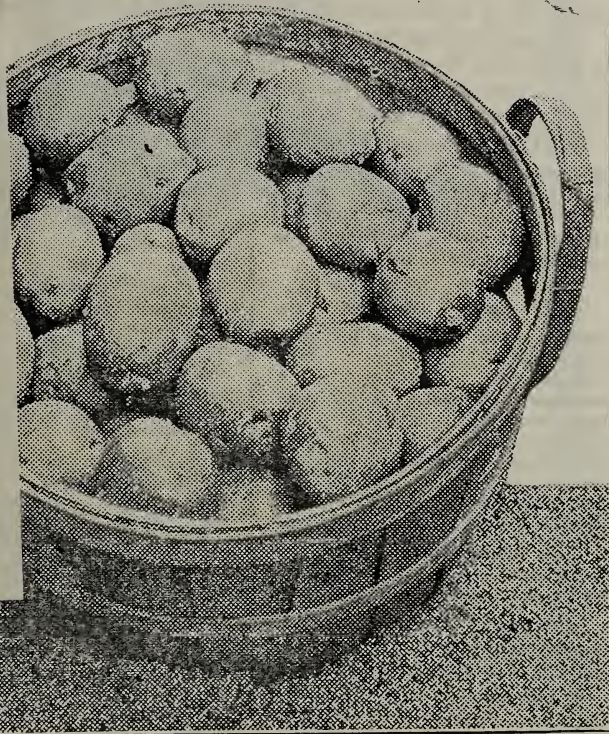

This new potato is bound to become one of the leading main crop varieties, for after repeated trials in various sections of the country, it has proven itself to be of great value on account of its immense yield, together with the fact that it produces hardly any small potatoes. Always yields big crops of large, smooth, white-skinned tubers, of

W. JUNG

GROWERS

SEED COMPANY

RANDOLPH, WISCONSIN

with them. Prices by mail: 3 lbs. 50c.

By freight or express: Pk. 65c; bu. \$2.35; 3 bu. \$6.90; second size bu. \$1.90. Write for special prices on larger quantities.

HARVEST KING

SIR WALTER RALEIGH

HARVEST KING

A Money Maker Main Crop Potato

We take pleasure in offering our friends this grand Potato, and we are sure that everyone who tries it will be more than pleased with its fine quality, vigorous growth and great productiveness. It has proved itself to be of great value on account of its tremendous yield, together with the fact that it produces but very few small potatoes. It is a magnificent sort, nice large, sound, white tubers, which are of excellent quality for cooking or baking. Harvest King will bring the highest prices on all markets.

Lb. 25c, postpaid. By freight or express: Pk. 70c; bu. \$2.45. Second size: Bu. \$1.90

Jung's Special Potato Offer:

We want our customers to plant these three Great Potatoes:

Red River Early Ohio

Sir Walter Raleigh

Harvest King

As a special offer we will send

1 lb. of each for 50c, postpaid.

1 pk. of each for \$2 15.

1 bu. of each for \$7.60.

Last two offers not prepaid.

IMPROVED RUSSET—We have only a limited quantity of second size which we offer at \$2.00 per bu.

NOTICE: Good Seed Potatoes will be scarce this spring, so we advise you to send in your order early. Potatoes will be shipped as soon as danger from freezing is over, which is usually from March 25th to April 1st.

Jung's Wholesale Prices for Market Gardeners

As is the custom with most seedsmen, we make special prices² to market gardeners and those requiring seeds in large quantities.

Owing to the large scarcity of seeds we advise ordering as early as possible, as when our present stock of seed is sold we will no longer be held at these prices. **ORDER EARLY!**

You may be able to purchase seeds at lower prices, but they are quite apt to be of lower quality. It is our aim to supply seed of the very best quality at a reasonable price.

At these prices the purchaser pays transportation charges. Please state whether we should ship by freight or express.

NOTE! We positively cannot fill any orders at these prices unless it amounts to \$3.00 or more.

NOTE—Half bushels may be ordered at bushel rates. Half lbs. at lb. rates.
